Message from the Chairperson

In fiscal 2013, the life insurance sector as a whole registered a de-growth of 2% (on retail weighted received premium basis) over the previous year. In this scenario, ICICI Prudential Life demonstrated the strength of its franchise with a growth of 17%.

The Indian economy has witnessed a moderation in growth over the last two years due to both global headwinds and domestic challenges. At the same time, the fundamental long-term growth drivers – namely, the demographic dividend and the vast potential for investment – remain unchanged. The ability to harness these growth drivers will be key to achieving sustained strong economic performance over the medium and long term. In recent months, the Government of India has taken several measures, including a programme of fiscal consolidation, to address current challenges and create an environment for sustainable growth. The moderation in inflation has also enabled easing of monetary policy by the Reserve Bank of India, which is positive for growth.

The Indian life insurance sector continues to evolve as it adapts to the regulatory changes introduced since 2010. In fiscal 2013, the life insurance sector as a whole registered a de-growth of 2% (on retail weighted received premium basis) over the previous year. In this scenario, ICICI Prudential Life demonstrated the strength of its franchise with a growth of 17%. ICICI Prudential Life effectively leveraged its product capabilities and distribution, as well as the distribution network of the ICICI Group. The Company also made significant investments in technology solutions to improve the customer experience.

India continues to offer substantial potential for growth in life insurance, with existing life insurance penetration at only 3.4% of GDP. At ICICI Prudential Life, our strong commitment to our customers and focus towards addressing their insurance needs will drive us towards the next level of growth. As part of this journey, we are committed towards expanding the availability of insurance solutions to all segments of the population, through targeted financial inclusion efforts.

We believe a strong life insurance sector can play an important role in the nation's economic development by facilitating mobilisation of savings for investment. ICICI Prudential Life with its rich experience and sustained market leadership among private sector players for over a decade is well placed to capitalise on this opportunity.

Message from the Chief Executive, Prudential Corporation Asia

The Indian life insurance industry is poised for significant growth, going forward. The insurance regulator has played a critical role by introducing measures to ensure that customer interests remain protected. Now it is up to the market participants to strengthen the industry with ability and acumen.

Prudential plc has a long history of helping customers with their financial plans since it started operations in the UK in 1848. Today our US operation, Jackson National Life is one of the leading providers of variable annuities in the country and Prudential Corporation Asia has more market leading positions than any other life insurer in the region.

I firmly believe it is our duty to ensure that Indian families receive good advice on how to protect their financial well-being and on the most appropriate ways for them to save over the longer term. We do have a great deal of work to do here as the market remains very underpenetrated, but I am pleased that ICICI Prudential Life continues to make good progress in the current challenging market conditions.

The Indian life insurance industry is poised for significant growth, going forward. The insurance regulator has played a critical role by introducing measures to ensure that customer interests remain protected. Now it is up to market participants to strengthen the industry with ability and acumen. ICICI Prudential Life has performed commendably over the years, setting high benchmarks of excellence in the industry.

The Indian economy is emerging as the world's third largest economy, with an enormous market potential. I know both partners are fully committed to continue reaching out to families and providing them with high quality financial solutions that meet their needs.

Message from the Managing Director & CEO

Our multi-channel architecture enables us to reach our customers with greater efficiency. Our service capabilities and delivery mechanisms are constantly fine tuned to the changing needs of our customers.

The Indian life insurance industry has had an exciting journey, characterised by continuous change over the last decade. As one of the first private sector players in the industry, ICICI Prudential Life Insurance has witnessed and participated in the evolution of the industry. In 2010, the insurance regulator introduced a set of guidelines which were truly game-changing for the industry. It gave the industry a very strong and sustainable foundation.

Customer centricity has been at the core of all the initiatives that we have implemented during the course of the year. Our belief in the principle of 'customer first' has nudged us to extensively adopt technology, which facilitates the delivery of high quality service to customers. Technology has been the catalyst which enabled efficiency while significantly improving customer experience.

MAINTAINING A CUSTOMER FOCUS

For us, at ICICI Prudential Life the focus on customers dovetails with our internal value of keeping customer requirements as the core of our business. Our multi-channel architecture enables us to reach our customers with greater efficiency. Our service capabilities and delivery mechanisms are constantly fine tuned to the changing needs of our customers. Our suite of products is defined on the basis of customer-specific financial goals. The philosophy of *Zimmedari ka Humsafar* is embedded in our core business strategies. Responsibility and sensitivity are the key qualities which drive us, from creating a product that meets a customers' savings requirement to addressing a claim.

Greater adoption of technology is a necessary outcome of the need to be efficient and deliver the best service to customers. Although, it is not an end in itself, it has allowed us to augment our customer value proposition by

We believe it is our responsibility as a participant in the life insurance industry to encourage long-term behaviour amongst customers and other stakeholders. In order to do so, we must ensure that customers are presented with simple and easy to understand solutions which best match their requirements.

providing quality products, through a robust delivery and service architecture. We have leveraged the technology platform to enable greater customer convenience, transparency, empowered customers to take informed decisions and increased their involvement in the buying process. Additionally, we have empowered our distribution network through the adoption of a mobile online platform for a superior customer on-boarding process.

HIGHLIGHTS OF 2012-13

Our focus on providing customers a better value proposition drove our business operations during FY2013. This included offering a comprehensive suite of solutions which address financial objectives of customers during their various life stages; streamlining our distribution channel to reach our customers faster and leveraging technology to enrich the customer's experience in the buying process. These measures have had a positive impact on our performance.

Our profits registered an increase of 8% to reach ₹ 14.96 billion. Simultaneously our assets under management too registered a healthy growth and stood at ₹ 741.64 billion.

THE ROAD AHEAD

In the next few years we expect the penetration of protection products to increase due to rising customer awareness, higher affordability and increasing acceptance of the online platform as it offers convenience. Our ability to reach customers through various channels and address an increase in demand will have to become more comprehensive. We already have in place a wide suite of protection and savings products. Going forward the importance of pension and health categories will be accentuated. These products offer a compelling proposition to customers who want to insulate their savings against any medical exigency and want financial independence after retirement. With this in mind, we will gear our offerings to include an all-encompassing suite of products, straddling all life stages of an individual, and addressing the protection, savings and investment categories.

We believe it is our responsibility as a participant in the life insurance industry to encourage long-term behaviour amongst customers and other stakeholders. In order to do so, we must ensure that customers are presented with simple and easy to understand solutions which best match their requirements.

We thank you for having reposed faith in us and providing us with the opportunity to partner with you in our quest for building an institution having integrity and trust as its foundation.

ZIMMEDARI KA HUMSAFAR

Head of the household. Breadwinner. Protector. Nurturer. Caregiver. These are just a few roles that Indians assume, as they shoulder the responsibility of their families and loved ones - unwaveringly & unconditionally.

We salute the spirit of responsibility that comes so naturally to the Indian. We are inspired by it and privileged to partner every Indian in their endeavour to protect their family.

Our business revolves around one desire: to be the *Zimmedari ka Humsafar* (or *Partner in Responsibility*) for our customers.

Responsibility is our fundamental quality. Our responsibility towards our employees and communities are as strong as ever. Whether we are creating an environment to nurture and develop talent or partnering communities in our effort to give back to society, we remain a responsible employer and corporate citizen.

Our objective is to remain a committed partner to our stakeholders. We pledge to be sensitive to their needs and partner them in their journey of life.

ICICI Prudential Life at a Glance

ICICI Prudential Life Insurance Company Limited (ICICI Prudential Life) is a joint venture between ICICI Bank, India's second largest bank and Prudential plc, a leading international financial services group headquartered in the United Kingdom. ICICI Prudential Life was among the first private sector life insurance companies to enter the insurance space in December 2000. ICICI Bank and Prudential plc hold 74% and 26% stakes, respectively, in ICICI Prudential Life.

Our commitment revolves around the customer, helping them meet their long-term financial goals. For over a decade, this commitment has only grown from strength to strength.

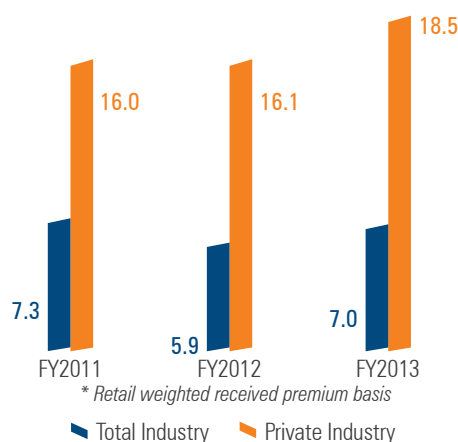

Our strategic objectives, detailed below, are directed towards reinforcing our customer value proposition while keeping the interest of our promoters in mind:

- Provide superior value proposition to customers
- Strengthen multichannel distribution architecture
- Improve cost efficiency
- Improve persistency and control surrenders
- Target superior risk adjusted fund performance
- Robust risk management and control framework

SERVING CUSTOMERS

In the journey through life all of us need protection and security. We have therefore created need-based solutions to help customers at every step of their journey, with sensitivity and efficiency. A well balanced distribution network coupled with technology provides customers convenience and flexibility to choose a product which meets their requirements. Importantly, having a sensitive approach to claims facilitates faster settlements, ensuring a support system for claimants in their hour of need.

ENHANCING CHOICE

We are focused on providing our customers with solutions across life, pension and health categories – that address their protection and savings requirements. This understanding has enabled us to move from a product-specific approach to one which is solution-oriented.

Comprehensive product suite

Protection Solutions

Education Solutions

Wealth Solutions

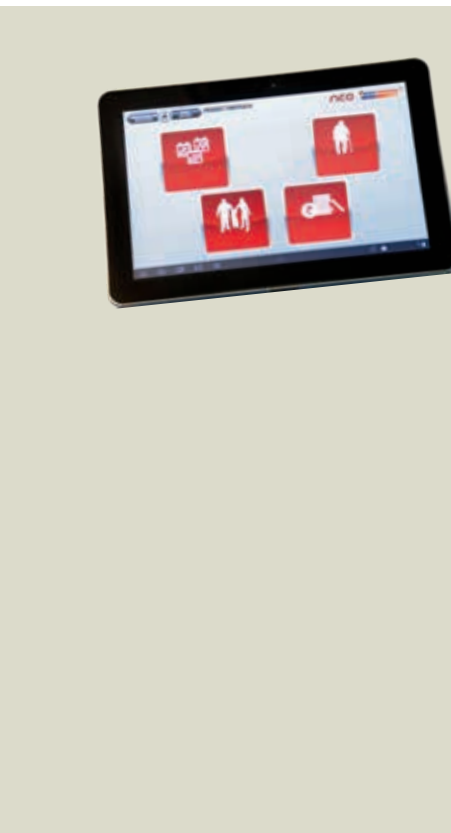

Retirement Solutions

Our solutions cater to the long-term financial goals of our customers, focusing on life stage benefits like retirement or children’s future rather than product features and returns. The iSolutions platform has been developed on a best suited combination of products, which optimises customers’ finances and ensures periodic cash flows to meet their goals. Importantly, we have reintroduced pension products to enable customers to plan and save for the years after their retirement.

Our customer service proposition is built on the premise that our involvement with customers continues during the term of the policy. Our robust customer service platform allows us to respond quickly to queries. An online sales platform provides convenience and flexibility to customers to choose products that address their needs.

INCREASING CONVENIENCE

Our widespread distribution network is supported by agents, bancassurance and alternative channels, which ensure optimal reach and efficiency. We decentralised our operations to empower local business leaders and build a team of senior leadership across the country. This move has augured well for us as it has enabled us to capture and address region-specific customer requirements.

LEVERAGING TECHNOLOGY

ICICI Prudential Life harnessed the digital platform to provide customers a more engaging experience, while choosing life insurance products.

We introduced tablets as selling aids for our distribution network, loaded with an interactive application. This has enhanced the performance levels of our distribution network on parameters of customer service and efficiency. More importantly, it has provided a platform for customers to get insights into their requirements and be involved in the process of selecting a life insurance product.

The interactive application is designed to do a need analysis for customers by taking into account factors such as; current life stage, investment preference, long term financial requirements, etc. A step-by-step simplified process allows the customer to understand the range of life insurance solutions available in just 8 (eight) minutes.

SETTLING CLAIMS

Our claims management process is designed to provide support and convenience as making a claim is a time of emotional distress for the claimant. Each claim is handled with utmost sensitivity.

We are driven by the philosophy of 'first time right' to ensure genuine claims are settled in a smooth manner and in the least possible time frame. We follow a well coordinated approach which facilitates a seamless flow of information between the call centre, branch office and the central claims team resulting in a hassle-free settlement process. These measures have allowed us to set benchmarks in turnaround times for settling claims in the Indian life insurance industry. Here too, multiple access modes (branch, SMS, email, online and a 24x7 call centre) allow claimants to reach out to us, when they need our support. These measures have resulted in us having a claims settlement ratio of 96.29% for FY2013 - one of the best amongst private life insurance companies.

SUPPORTING OUR CUSTOMERS

“ ICICI Prudential Life supported me during an especially testing time in my life. I had just lost my young son and was completely devastated. In this situation an ICICI Prudential Life branch officer stepped in to address my claim with professionalism and compassion. He took extra care to complete the formalities with the least amount of trouble within just eight days. The moral and emotional support given to me made me feel that the entire ICICI team was standing by me in my moment of grief. I sincerely appreciate all his assistance and wish him the best.”

EMPOWERING EMPLOYEES

We believe that the long term growth of any business is inextricably linked to the quality of its talent pipeline. Continuous investment in the learning and growth of our people has deepened the leadership bench strength and has helped support business continuity and stability. As a responsible employer, we offer our employees opportunities for learning, performance rewards based on fairness and meritocracy and provide a supportive environment conducive for professional growth.

LEARNING AND GROWTH

Our focus on developing talent forms a core employee value proposition and is delivered through by offering challenging roles, internal mobility and job rotation opportunities. A robust infrastructure allows self-directed and peer learning opportunities. Feedback mechanisms such as a 360 degree feedback and coaching and mentoring conversations with immediate and skip level managers are an integral part of our performance and talent management processes.

FAIRNESS AND MERITOCRACY

The employee propositions of fairness and meritocracy form the twin pillars on which employee policies are developed and articulated. Rule-based policies and practices ensure consistency and transparency in all employee actions. A multi-tier performance ratification process and rewards linked to performance form the guiding principle for creating a high-performance work culture. To encourage prudent behaviour, the Company has in place a "Good Order Index" as a Key Performance Indicator (KPI). This encourages senior management to demonstrate and embody the 'right leadership behaviour'. Team members at the mid-management level too are evaluated against a balanced mix of quantitative and qualitative KPIs.

PROVIDING A SUPPORTIVE ENVIRONMENT

Creating an environment which is supportive to professional growth and rewarding longevity and tenure with the organisation forms a key employee value proposition. Our benefit proposition is linked to tenure and level and offers a compelling mix for enhancing the physical and psychological well-being of our employees. Special emphasis is placed on enhancing workplace diversity and employee health and safety through enabling policies, programs. We reinforce a culture where family members, colleagues stand by each other in their time of need and distress.

Benefiting from experience

- **Tenure:** 62% of senior management and 44% of branch heads have been with the company for over 8 years
- **Industry experience:** 70% of senior management and 75% of branch heads have more than 8 years of life insurance industry experience
- **Hiring:** 90% of senior management and 84% of branch head positions filled internally

SUPPORTING COMMUNITIES

Sustainability is integral to the way we do business. We have issued over 960 thousand policies during the year to cater to the protection, savings and retirement needs of our customers. Of these over 305 thousand policies were issued in the rural areas. Our Corporate Social Responsibility (CSR) commitment aims to support the under-served communities by offering them protection for their livelihood, healthcare, supporting children and the elderly.

EMPLOYEE VOLUNTEERING PROGRAMMES

A key aspect of our CSR vision is to encourage our employees to embrace the spirit of giving and volunteering. The Company runs a payroll giving program and encourages employee volunteering such as offering fellowship for the Teach for India initiative. The Company makes a matching contribution where employees contribute to areas aligned to the Company's CSR focus areas.

FINANCIAL INCLUSION

During FY2012-13, ICICI Prudential Life has taken forward the goal of financial inclusion through distribution of its micro insurance product Sarva Jana Suraksha. The product was distributed through a network of over 60 partners to more than 296,000 rural customers spread across 10 states.

HEALTHCARE AND EDUCATION INITIATIVES

The Company partnered with Raja Rajeshwari Medical College and Hospital through Rotary Club of Bangalore Charitable Trust (RCBCT) to offer subsidised and free dialysis treatment to over 5,000 diabetic patients. Additionally, support was extended towards education of 650 underprivileged children through scholarships and mid-day meal programs in Mumbai and Hyderabad.

Directors' Report

TO THE MEMBERS

ICICI Prudential Life Insurance Company Limited

Your Directors have pleasure in presenting the Thirteenth Annual Report of ICICI Prudential Life Insurance Company Limited (the Company) with the audited statement of accounts for the year ended March 31, 2013.

PERFORMANCE

Industry in FY2013

Life insurance industry registered a decline of 1.9% in retail weighted new business premium (RWRP) during FY2013. Within this, the public sector registered a decline of 4.1% and the private sector registered a growth of 1.9%. FY2013 was the first year after regulatory changes in September 2010 that the private sector registered a growth. Some of the key trends in the industry emerging after the regulatory changes are as follows:

- The product mix of the private sector insurers has shifted from primarily unit linked to a more balanced product mix.
- The share of agency channel in the distribution mix for private sector insurers has declined.
- The number of individual agents for the private sector industry declined from 1.06 million in December 2011 to 0.96 million in December 2012 as the agency channel continues to adapt to the new regime.

Company in FY2013

The Company registered a growth of 17.5% in FY2013 against a decline of 23.5% in FY2012. Stronger growth of the Company, compared to an industry decline of 1.9% and private sector growth of 1.9%, resulted in an increase in market share based on RWRP from 5.9% in FY2012 to 7.0% in FY2013. Among private players, the Company maintained its leadership position and increased the market share from 16.1% in FY2012 to 18.5% in FY2013.

The new business premium (including group premium) collected by the Company increased by 8.3% from ₹ 44.41 billion in FY2012 to ₹ 48.08 billion in FY2013. Renewal premium declined by 8.9% from ₹ 95.81 billion in FY2012 to ₹ 87.30 billion in FY2013, resulting in a total premium decline of 3.4% from ₹ 140.22 billion in FY2012 to

₹ 135.38 billion in FY2013. The decline in renewal premium is because of the decline of new business volumes in the past few years reflecting in renewal premiums with a lag.

The Company registered 8.1% growth in profit after tax from ₹ 13.84 billion in FY2012 to ₹ 14.96 billion in FY2013. The solvency ratio for the Company remained healthy at 395.7% for FY2013. The assets under management (AUM) at March 31, 2013 were ₹ 741.64 billion as compared to ₹ 707.71 billion as at March 31, 2012. For its unit-linked funds, the Company delivered superior fund performance and 89% of the funds outperformed their respective internal benchmarks over the trailing five year period.

We continue to leverage technology in all sales and service processes to provide a convenient platform for the customer. The digital platform is designed to enable a structured sales process, faster and convenient onboarding process and enhanced customer experience. For FY2013, 51.7% of new business applications and 16.7% of new business issuances (both ratios basis retail annualized premium equivalent) were through online platforms and 19.6% of retail renewal premium was collected online. For the last few years, two-thirds of servicing transactions are through self-service modes.

In addition to the focus on servicing, the Company has worked towards ensuring a transparent and trust worthy environment to the customer. Grievance ratio, which measures the number of grievances per 10,000 policies issued, has been further improved to 213 in FY2013 from 214 in FY2012 and 361 in FY2011. Claims acceptance ratio which measures proportion of claims accepted by the company to the claims submitted, was 96.3% in FY2013.

A summary of the key metrics are as mentioned in the table below:

Particulars	₹ billion	
	Fiscal 2012	Fiscal 2013
Premium income:	140.22	135.38
- New business premium	44.41	48.08
- Renewal premium	95.81	87.30
Profit before tax	14.14	15.70
Provision for tax (deferred tax)	(0.30)	(0.74)
Profit after tax	13.84	14.96
Sum assured in force:		
- Basic policy	2,091.04	2,412.99
- Total (Basic + Riders)	2,416.86	2,757.71
Annualised premium equivalent (APE)	31.18	35.32
Assets held	707.71	741.64
Expense ratio*	17.9%	19.2%

* Expense ratio = Expenses (including commission and front line sales cost excluding unit expenses)/(Total premium income - 90% of single premium)

Outlook for the industry and the Company

We believe that the life insurance industry would continue to be one of the preferred instruments for longer term savings and protection. The growth prospects of the industry remain positive on the back of the structural advantages like favourable demographics, high rate of financial savings, improving insurance product propositions and relative under penetration of insurance in India compared to global benchmarks.

The Company would continue to focus on its strategic priorities, specifically:

- Enhance market leadership: The Company would continue to focus on growth opportunities in the market with a customised regional strategy to strengthen relative position in every geography.
- Providing superior value proposition to customers: The Company would aim at creating superior customer value propositions through customer centric products and service architecture. The Company would endeavour to provide a comprehensive suite of products across life, pension and health.

- Strengthen multi-channel architecture: The Company would strengthen its multi-channel distribution by non-linear scale up of agency, leveraging the bancassurance franchise and focussing on quality third party distribution.
- Continued focus on efficiency of operations: The Company would focus on cost efficiency and in particular would leverage the digital platform to improve customer experience and efficiency of operations.
- Customer retention: The Company would strengthen mechanisms to improve the AUM growth by increasing renewal premium and curtailing surrenders.
- Superior risk adjusted fund performance: The Company has in place a robust risk and investment management framework to deliver superior risk adjusted returns to customers.

OUR REACH

The Company reaches its customers through 559 offices in 487 locations at March 31, 2013. At March 31, 2013, the Company had over 12,850 employees and over 147,500 advisors and is thus well equipped to cater to the needs of customers. The Company distributes its products and renders services through its offices as well as individual agents, corporate agents, banks, brokers, the Company's proprietary sales force and online channels.

PRODUCTS

The Company offers a range of life, pension and health products across traditional and unit linked platforms with a view to provide a range of solutions to meet specific needs of customers. During the year we have strengthened our solution-based sales processes by enabling our products to be positioned to meet the customers' life stage needs. We will continue to design products that will provide a good value proposition to our customers to help them plan for their goals. In FY2013, the Company had a balanced product mix with traditional products contributing to 45.5% of the retail regular new business premium. The Company re-entered the pension category with the launch of Subh Retirement in December 2012.

DIVIDEND & TRANSFER TO RESERVES

The financial operations have resulted in a profit after tax of ₹ 14.96 billion as compared to a profit after tax of ₹ 13.84

billion for the previous year. The Board at its Meetings held on July 24, 2012, October 19, 2012 and January 22, 2013 had approved payment of interim dividend of ₹ 0.70 per share, ₹ 0.85 per share and ₹ 0.85 per share respectively. The Board at its Meeting held on April 18, 2013 recommended a final dividend of ₹ 0.99 per share which together with the interim dividend of ₹ 2.40 per share already declared and paid works out to a total dividend of ₹ 3.39 per share aggregating to ₹ 4.84 billion for FY2013. An amount of ₹ 1.50 billion was transferred to the reserves of the Company at March 31, 2013.

CLAIMS

The Company believes that claim settlement is the ultimate promise which needs to be delivered to policyholders/beneficiaries. Towards this objective, we have designed and developed robust claims processes and systems which ensure settlement of genuine and legitimate claims at the earliest, thereby protecting the interest of policyholders.

The Company has demonstrated its commitment by settling over 17,000 individual and group mortality claims in FY2013. For non-investigated individual claims, the claim settlement was completed within an average of four days from receipt of last requirement as compared to the regulatory norm of 30 days.

SUBSIDIARY

The Board reviewed the affairs of the Company's wholly owned unlisted subsidiary, ICICI Prudential Pension Funds Management Company Limited (PFM). PFM was appointed by the Pension Fund Regulatory and Development Authority (PFRDA) as a pension fund manager and acts as a fund manager under the National Pension System (NPS) for Indian citizens other than government employees. It is the only pension fund manager under NPS which is promoted by a life insurance company with experience in managing long term investments of life and pension funds.

During the year ended March 31, 2013, the subscribers' funds managed by PFM have reached ₹ 722.3 million (previous year: ₹ 291.9 million) and the PFM registered a loss of ₹ 1.0 million (previous year: loss of ₹ 0.4 million).

The Company prepares and presents consolidated financial statements in addition to its individual financial statements. The consolidated financial statements are prepared in accordance with Accounting Standard (AS) 21 on 'Consolidated Financial Statements', prescribed in the Companies Act, 1956 ((Accounting Standard) Rules, 2006).

The financials of PFM are consolidated on a line-by-line basis in accordance with AS 21.

BOARD OF DIRECTORS

In terms of the provisions of the Companies Act, 1956 and the Articles of Association of the Company, Mr. K. Ramkumar, Mr. Vinod Kumar Dhall, and Mr. Puneet Nanda will retire by rotation at the ensuing Annual General Meeting. They are eligible for re-appointment and have offered themselves for re-appointment.

AUDITORS

S. B. Billimoria & Co. and S. R. Batliboi & Co. LLP, Chartered Accountants, were appointed as joint statutory auditors of the Company for FY2013 at the Twelfth Annual General Meeting to hold office upto the conclusion of the ensuing Annual General Meeting. They are retiring at the ensuing Annual General Meeting and are eligible for re-appointment.

DETAILS AS PER SECTION 217(2A)

As required by the provisions of Section 217 (2A) of the Companies Act, 1956, read with the Companies (Particulars of Employees) Rules, 1975, as amended, the names and relevant particulars of the employees are set out in the Annexure to the Directors' Report.

RURAL AND SOCIAL BUSINESS

More than 305,000 policies were issued in rural areas, constituting over 32% of total policy issuances. The Company also covered more than 168,000 lives falling within the norm of 'social sector' business.

INCREASE IN SHARE CAPITAL

The paid-up capital of the Company increased by ₹ 0.9 million (face value) pursuant to exercise of stock options granted under the Employee Stock Option Scheme taking the paid-up capital to ₹ 14.29 billion (face value) at March 31, 2013.

PUBLIC DEPOSITS

During the year under review, the Company has not accepted any deposits under Section 58A of the Companies Act, 1956.

INTERNAL AUDIT AND COMPLIANCE FRAMEWORK

Internal Audit: The Company has in place an internal audit framework with a risk based audit approach. The basic philosophy of risk based internal audit is to provide

reasonable assurance to the Board Audit Committee and top management about the adequacy and effectiveness of the risk management and control framework in the Company.

Review of controls is undertaken by internal audit through execution of internal audits as per risk based audit plan. The internal audit covers auditing of processes, transactions and systems. Key audit observations and recommendations made are reported to the Board Audit Committee every quarter. Implementation of the recommendations is actively monitored.

The internal audit function is capable of reviewing and assessing the adequacy and effectiveness of, and the Company's adherence to its internal controls as well as reporting on its policies and procedures.

Compliance: The Board Audit Committee oversees the compliance framework of the Company. The Company has formulated various internal policies/procedures and an employee code of conduct, which govern day-to-day activities to ensure compliance. The Compliance function disseminates relevant laws, regulations and circulars related to insurance, anti-money laundering and other regulatory requirements, to various functions. It also serves as a reference point for the staff of various functions for seeking clarifications on applicable laws, regulations and circulars issued by the regulatory authorities. The Compliance team also monitors the adequacy of the compliance framework across the Company. Key issues observed as part of this monitoring are reported to the Board Audit Committee, and implementation of recommendations is actively monitored. A compliance certificate signed by the Managing Director & CEO, based on the certification from respective functional heads, is placed at the Board Audit Committee on a quarterly basis.

RISK MANAGEMENT FRAMEWORK

The Company recognises that risk is an integral element of the business and managed acceptance of risk is essential for the generation of shareholder value. The Company's acceptance of risk is dependent on the return on risk-adjusted capital and consistency with its strategic objectives. The Company endeavours to reduce risks to the extent it is cost-effective to do so. In general therefore, the Company's control procedures and systems are designed to manage risk, rather than eliminate it. However, at certain times, there may also exist some risks for which the Company has no tolerance and which are actively avoided.

The Company has in place a risk management framework with the following aims:

- Determining the risk profile of the Company i.e. the aggregate level of risks that the Company has undertaken in pursuit of profitable business.
- Identification, measuring, monitoring and control of risk for the purpose of protecting the interests of key stakeholders.
- Enhancing the Company's ability to identify and pursue opportunities that offer attractive risk-adjusted returns by providing transparent, accurate and timely risk information.
- Embedding risk-based decision making in key management processes and fostering a culture of risk awareness.
- Limiting the Company's exposure to adverse outcomes through risk limits.
- Ensuring compliance with regulatory requirements.
- Focussing on ensuring that it possesses the appropriate capabilities and experience in managing and transferring risks.
- Minimising reputational risk.

Risk categories

The risks faced by the Company are classified under the following categories:

- **Market Risk:** Risk arising out of variations in the level or volatility of the market prices of assets, liabilities and financial instruments due to external market and economic factors;
- **Credit Risk:** Credit risk is the risk of default of a counterparty or debtor including the risk of default of risk mitigating contracts like reinsurance;
- **Liquidity Risk:** The risk that the business will encounter difficulty in realising assets or otherwise raising funds to meet commitments;
- **Insurance Risk:** Risk arising because of mis-estimation of persistency, mortality, morbidity and expenses or because of random fluctuations in the frequency and size of claims and other cash flows; and
- **Operational Risk:** The risk of loss, resulting from inadequate or failed internal processes, people and systems, or from external events.

Governance and policy framework

The risk governance structure of the Company consists of the Board, the Board Risk Management Committee (BRMC), the Executive Risk Committee (ERC) and its sub-committees. The risk management model of ICICI

Prudential Life Insurance Company comprises a four-stage continuous cycle, namely the identification and assessment, measurement, monitoring and control of risks. The Company's risk policies detail the strategy and procedures adopted to follow the risk management cycle at the enterprise level.

The Board, on recommendation of Board Risk Management Committee, has approved various risk policies namely:

- Board Market Risk Policy
- Board Credit Risk Policy
- Board Liquidity Risk Policy
- Board Insurance Risk Policy
- Board Operational Risk Policy
- Board Reinsurance Policy
- Board Underwriting Policy
- Board Outsourcing Policy

The ERC assists the Board and the BRMC in their risk management duties and, in particular, is responsible for the approval of all new products launched by the Company.

Risk management cycle

1. Risk Identification

The Company identifies risk through a variety of techniques and processes, including

- Stress testing of the financial condition of the Company. Risk can be assessed by reference to the realistic Balance Sheet or Embedded Value, subject to a constraint that the exposure should not endanger the statutory position. The Embedded Value of the Company is the present value of shareholders' interests in the earnings distributable from assets allocated to the covered business after sufficient allowance for the aggregate risks in the covered business.
- Product development process by way of sensitivity of margins to market and insurance risk. Any liquidity risk arising out of the new product or modification of existing product is assessed prior to launch.
- Review of bases of assumptions conducted periodically to review the actual experience relative to the expected experience of different components of insurance risk. Expense risk is also informed by the business planning process that estimates future business volumes and expenses.

- Risk and Control Self Assessment (RCSA) requires each business unit within the Company to identify and assess operational risks in terms of likelihood and impact. The risks identified are classified into risk categories of (a) external fraud, (b) internal fraud, (c) execution, delivery and process management, (d) business disruption and system failures, (e) clients, products and business practices (f) damage to physical assets, and (g) employment practices and workplace safety.

2. Risk Measurement

The Company uses the following approaches to measure risk exposure:

- Risk to the Embedded Value (EV): The Company considers the 1-year Value at Risk of the EV, calculated using estimates of 1-in-200 year economic and non-economic stress scenarios, to be the appropriate measure of risk exposure for market, credit, persistency, mortality and morbidity risks.
- Risk to the growth of the EV: In addition to the risk to the current EV, the Company also considers risks to the future growth of the EV like insufficient new business profit growth and over-run in acquisition or renewal expenses, caused by adverse deviation of actual unit costs from planned unit costs.
- Risk to the statutory position: The Company conducts asset liability modelling on its balance sheet to assess potential impacts on its solvency cover and on its free surplus.
- Level of highly liquid assets (cash and cash equivalent) against the level of near term liabilities.
- Key risk indicators and loss data for operational risk.

3. Risk Monitoring

The results of risk measurement for each of the risks are published in a Quarterly Risk Report. The report is reviewed by the ERC, which in turn presents the summary to the BRMC, as applicable, on a quarterly basis. Additionally, past actual loss incidents and current audit findings are used to validate the RCSA.

4. Risk Control

Risk is managed by one or more of the following techniques (i) retention (acceptance), (ii) avoidance, (iii) transfer or, (iv) reduction (mitigation). The nature of the controls implemented and the level of control exercised are based upon the:

- Potential severity of the risk;
- Frequency of the risk;
- Cost of implementing controls relative to the significance of the risk; and
- Risk Appetite.

Market risk

Market risk is managed primarily through product approvals by the ERC and investment specifications.

New products can significantly alter the risk profile of the Company's Balance Sheet. The Product approval process ensures that market risk in each new product or modification of an existing product is within the risk appetite of the Company.

The Company categorises its products based on their risk profiles to enable appropriate asset-liability management. For each category of products, the Company has defined Investment Specifications that specify limits to permissible exposures to various asset classes along with duration guidelines for fixed income instruments. The Investment Specifications are designed appropriately to achieve the risk versus return objectives and policyholders' reasonable expectations while maintaining the risk within the Company's risk appetite and with due consideration of regulatory requirements.

Credit risk

Credit risk is managed by restricting investments principally to government bonds and highly rated corporate securities and continual monitoring of the credit portfolio. The Company has exposure limits to companies, groups and industries. Credit risk exposure to reinsurers is managed by partnering with select and financially sound reinsurers and reviewing the Company's exposure on a periodic basis.

Liquidity risk

Liquidity risk is managed by specifying the minimum investment in cash and cash equivalent instruments and through cash flow matching for certain funds. Additionally, the Company has a liquidity contingency plan (LCP) in place.

Insurance risk

New products can significantly alter the risk profile of the Company's Balance Sheet. The product approval process ensures that insurance risk in each new product/modification of an existing product is within the risk appetite of the Company.

The Company conducts its experience analysis regularly to compare actual experience with assumptions used for pricing and reporting to ensure that corrective action can be initiated at the earliest opportunity and assumptions are in line with experience.

The Company uses reinsurance and underwriting as key mitigants for mortality and morbidity risk. The Company also reserves the right to review risk charges for certain products, in case of adverse experience, with IRDA approval. The Company uses different key performance indicators to align interests and ensure adequate focus on expense and persistency.

Operational risk

The Company develops mitigation plans for high risk items. Actions identified for mitigation of the risks (through RCSA, Key Risk Indicators (KRI) and incident analysis) are monitored periodically. The Company periodically assesses the use of insurance to mitigate operational risk.

The Company has in place internal control policies to mitigate operational risk. Additionally, the Company has set up committees e.g. project steering committee to ensure better internal controls.

CORPORATE GOVERNANCE

The corporate governance framework of the Company is based on an effective independent Board, the separation of Board's supervisory role from the executive management and the constitution of Board Committees, generally comprising a majority of independent/non-executive Directors and chaired by independent Directors, to oversee critical areas.

Philosophy of Corporate Governance

The Company's corporate governance philosophy encompasses not only regulatory and legal requirements but also several voluntary practices aimed at a high level of business ethics, effective supervision and enhancement of value for all stakeholders, legally, ethically and on a sustainable basis, while ensuring fairness. The Insurance Regulatory & Development Authority (IRDA) had issued corporate governance guidelines applicable to all insurance companies. The Guidelines have come into force effective April 1, 2010. The Company had taken necessary steps and put in appropriate processes to ensure compliance with the same. The corporate governance framework adopted by the Company already encompasses a significant portion

of the recommendations contained in the 'Corporate Governance Voluntary Guidelines 2009' issued by the Ministry of Corporate Affairs, Government of India.

Whistle Blower Policy

The Company is committed to adopting the highest business, governance, ethical and legal standards. To aid in achieving this objective, the Company has formulated a Whistle blower Policy. The purpose of the Whistle Blower Policy is to encourage employees to report matters without the risk of subsequent victimisation, discrimination or disadvantage. As per the Policy, employees can raise concerns related to breach of any law, statute or regulation, Issues related to accounting policies and procedures, Acts resulting in financial loss or loss of reputation, misuse of office, suspected/actual fraud and criminal offences, non-compliance to Anti-bribery & anti-corruption policy by the Company or its employees to the Board Audit Committee through specified channels. This mechanism has been communicated and posted on the Company's intranet.

Code of Conduct for Personal Investments

The Company has a Code of Conduct for personal investments. The objective of the Code is to prohibit insider trading in any manner by the Access Persons and to maintain confidentiality of unpublished price sensitive information and access to information on a "need to know" basis. The Code is applicable to all "Access Persons" and their "Family Members" as defined in this Code and forms a part of the code of conduct for such employees.

Code of business conduct and ethics

The Board of Directors has approved a Code of Business Conduct and Ethics for Directors and employees of the Company. The Code aims at ensuring consistent standards of conduct and ethical business practices across the constituents of the Company.

The Code lays down the broad framework of general guiding principles.

Board of Directors

The Company has a broad-based Board of Directors, constituted in compliance with the Companies Act, 1956 and in accordance with good corporate governance practices. The Board comprises thirteen Directors; four nominated by ICICI Bank Limited, two nominated by Prudential Plc, five independent Directors, the Managing Director & CEO and the Executive Director. Except the Managing Director & CEO and the Executive Director, all other Directors including the Chairperson of the Board are non-executive Directors. There is a clear segregation of responsibility and authority between the non-executive

Directors and the executive management. The Board is responsible for overall corporate strategy and other responsibilities as laid down by IRDA under the Corporate Governance guidelines. The Managing Director & CEO and the Executive Director oversee implementation of strategy, achievement of the business plan and day-to-day operations. There is an appropriate mix of executive, non-executive and independent Directors to maintain the professionalism and independence of the Board. The independent Directors are eminent personalities with significant expertise in the fields of finance, law, strategy and marketing. None of the Directors are related to any other Director or employee of the Company.

The Board functions either as a full Board or through various Committees constituted to oversee specific operational areas. The Board has constituted six Committees, namely, Board Audit Committee, Board Risk Management Committee, Board Investment Committee, Board Customer Service & Policyholders' Protection Committee, Board Compensation & Nominations Committee and Share Transfer Committee. These Board Committees mainly consist of independent/non-executive Directors and all the Committees are chaired by independent Directors.

At March 31, 2013, the Board of Directors consisted of 13 members. There were four Meetings of the Board during FY2013 - on April 25, 2012, July 24, 2012, October 19, 2012 and January 22, 2013. I. INDUSTRY AND BUSINESS REPORT

(a) Economic overview and outlook

The global economic environment continues to remain weak as several economies are yet to fully recover from the financial crisis of 2008-2009 and the subsequent European crisis. The table below lists down the trend of GDP growth of key economic zones in the world. Global growth dropped to 3.2% in CY2012 and is expected to be only marginally better at 3.3% in CY2013. In many developed countries across the world, restructuring, austerity measures and fiscal reforms are under way. Developing economies are implementing reforms to boost productivity, diversifying growth drivers and encouraging foreign investment flows.

Output growth in %	CY2011	CY2012	CY2013F
World output	4.0	3.2	3.3
Advanced economies	1.6	1.2	1.2
Emerging markets and developing economies	6.4	5.1	5.3
United States	1.8	2.2	1.9
Euro area	1.4	(0.6)	(0.3)
United Kingdom	0.9	0.2	0.7
China	9.3	7.8	8.0
India	7.7	4.0	5.7
ASEAN economies	4.5	6.1	5.9

Source: World Economic Outlook – April 2013, International Monetary Fund (IMF). Information produced in the table above is for the calendar year (CY), for 2013 the information is as forecasted by IMF.

Overall, global growth is expected to strengthen gradually through 2013, averaging 3.3% on an annual basis, a moderate upside from 3.2% in 2012. A further strengthening to 4.1% is projected for 2014 by IMF, assuming recovery takes a firm hold in the Euro area economy.

On purchasing power parity basis, the Indian economy was the third largest in the world in the year 2012 with a GDP of approximately USD 4.7 trillion¹. For the ten year period from FY2000 to FY2010, the compounded annual growth rate ("CAGR") of GDP was 6.9%². In the last two years the GDP growth has slowed down and in FY2013, at 5.0% we

had the lowest GDP growth in the last decade. Several international and domestic factors have contributed to this trend including weak global demand, high exchange rate, high inflation, high domestic interest rates and investment slowdown. Given the strong fundamentals of the Indian economy and favourable demographics, we believe that in the medium to long term the growth will return to levels much higher than that seen in the last couple of years.

(b) Insurance industry structure and developments - The decade gone by

Indian life insurance industry is tenth largest in the world. In the period from FY2002, the first full year after entry of private companies, to FY2010, the industry witnessed a rapid growth with a CAGR of 25%³. Insurance penetration increased from ~2.1% of GDP⁴ in FY2002 to ~4.6% of GDP⁴ in FY2010. In the subsequent three years the industry has declined year on year by 8.5%, 4.8% and 1.9% in FY2011, FY2012 and FY2013 respectively. The large part of the decline has been due to the sharp decline of private players; 20.0% in FY2011 and 23.9% in FY2012. Some of the factors which have contributed to this decline are the lower GDP growth rate, fall in household financial savings rate, high interest rates which made bank deposits relatively more attractive; increased risk aversion due to volatile equity markets and lead time taken by distributors and insurers to adjust to the evolving regulatory environment. In FY2013 the private industry had a marginal positive growth.

Particulars	FY2002	FY2008	FY2010	FY2012
Nominal GDP (₹ trillion)	23	50	65	90

(c) Competitive landscape

The life insurance industry has 24 players including the Life Insurance Corporation of India (LIC). After liberalisation of the industry, the private players' market share peaked in FY2009 at 57%. Following the regulatory changes in FY2011, LIC, with a largely traditional mix of new business, was relatively less impacted and has gained market share. LIC had a market share⁶ of 62% as on March 31, 2013.

Market share (Retail weighted received premium basis)

(d) Recent Industry trends

Shift in product mix

In FY2012 and FY2013, the product mix of private players shifted significantly from ULIPs to traditional products, moving from 32.6% traditional mix in FY2011 to 58.4% in FY2012 and to 66.9% as at December 31, 2012 of total new business received premium⁷.

Increase in private players' market share

In FY2013, the industry declined by 1.9%. LIC declined by 4.1% whereas private players grew by 1.9%. Hence, the market share of private players increased from 36.5% in FY2012 to 38.0% in FY2013. LIC's market share steadily fell from 75.4% for the month of April 2012 to 58.9% for the month of March 2013.

Distribution

The share of agency channel for private insurers has declined over the last couple of years. This stems from the fact that the transition triggered by the ULIP regulations of FY2011 and the subsequent economic slowdown impacted the individual agents more because of the lead-time required by them to get used to the new product suite. The number of agents engaged by the industry fell from 2.38 million as at March 31, 2012 to 2.16 million as at December 31, 2012.⁸

Regulatory changes

FY2013 witnessed substantial changes in the regulatory environment, especially in the areas of products, policyholder protection, investments, risk, distribution and taxation. Some of the key developments are as listed below:

Products

- IRDA issued regulations for Linked and Non-linked products, which prescribe norms for insurance products including minimum policy/premium term, policy benefits, maximum surrender charges, as well as commission rates which are now linked to premium payment term. Insurers are required to withdraw non-compliant group and individual products from July 1, 2013 and October 1, 2013 respectively.
- Regulations have also been notified for Health insurance including Guidelines on standardisation in health insurance. These aim to standardise definitions, the requirements pertaining to health insurance, standardised forms, agreement formats and definitions of commonly used terms.
- Clarifications were issued on pension products, regarding the option available on surrender or vesting, new members joining existing groups, death benefits and surrender value of policies.

⁷ Life Council Industry Statistics

⁸ Life Council Industry Statistics

- IRDA also constituted a working group to design standardised product categories, with the objective of simplifying the product approval process.

Policyholder protection

During the year, IRDA issued various circulars/guidelines in relation to aspects of policyholder protection, in relation to purchase of policies, servicing and claims. IRDA had allowed written confirmation from the bank, where the proposer is a customer, to be considered as valid Know Your Customer (KYC) document for identification and proof of residence. IRDA has proposed setting up of a web portal for authorisation of health claims to ensure seamless claims process. IRDA has also issued guidelines/regulations on servicing orphan policyholders and servicing customers in the event of closure of offices. Benefit illustrations have been introduced for non-linked products as well.

Control framework and governance

IRDA issued clarifications and guidelines on various areas to strengthen risk and control framework of insurers. These include guidelines on Insurance Fraud Monitoring Framework, which aim to address and manage the risks faced by insurers as a result of possible frauds.

Investments

IRDA issued circulars allowing insurers as protection buyers of Credit default Swaps, to participate in Repo/ Reverse Repo transactions in Corporate Debt Securities and investment in Category I Alternate Investment Funds, subject to conditions prescribed. IRDA has also amended the investment exposure norms broadly to align the exposure limits for investments under the linked and non-linked portfolios; the revised norms however come into effect from April 1, 2013.

Capital structure

IRDA also issued regulation for issuance of capital and amalgamation and transfer of life insurance business, prescribing approvals required, procedure to be followed and mandatory disclosures in the event of a public offering or any merger or acquisition activity by an insurance company. An exposure draft for Risk Based Solvency approach was also issued, and an expert committee constituted to suggest a road-map for moving towards Risk Based Solvency.

Distribution

- Regulations were introduced on Places of Business, which require a Board-approved annual plan for opening new offices.
- Draft regulations were introduced for licensing of Bancassurance entities, which proposed enabling a bank to distribute insurance products for more than one insurer or even resort to being a broker under IRDA (Insurance Brokers) Regulations, 2002, along with the existing option of continuing to sell for one insurer.
- IRDA had constituted a committee to consider sub-broking for insurance distribution, with the objective of increasing penetration.

Taxation

In addition to the changes in the insurance regulatory environment, there were a few changes in the taxation regime for insurance companies. Service Tax for non-term traditional products was increased from 1.5% to 3%. The Finance Act, 2012 increased the minimum sum assured to ten times of the first year premium for availing income tax benefits.

(e) Outlook

We believe that the life insurance would continue to be the preferred instrument for longer term savings and protection. The growth prospects of the industry remain positive on the back of structural advantages that the Indian economy offers. However the industry would need to concentrate on a few near term challenges/priorities to be able to fully leverage the growth potential. We believe that the industry has the following opportunities and challenges.

Opportunities

GDP growth and increasing income levels

In spite of recent slowdown, India is likely to remain one of the fastest growing economies in the world on a long term basis. Given the high growth and increasing income levels, the household income flowing into insurance is expected to continue to increase in absolute terms.

Demographic dividend

In India the working population is expected to rise in the coming years. For insurance industry, this trend translates into an increase in its customer base.

Insurance penetration and density

The life insurance penetration⁹ of India was 3.2% in FY2012 and the insurance density¹⁰ was 43 USD. The penetration has fallen from 4.6 % in FY2010. The penetration is far low compared to other developed and developing economies and hence there is a potential for the penetration to grow further in the coming years. One more indicator for the potential for the insurance industry in India is the fact that India has a very low Sum Assured to GDP ratio. India, with a ratio of 55%, significantly lags behind many economies for instance the US at 250% and even Thailand at 180%.

Pension and health opportunity

In absence of comprehensive social security scheme, there is a need for pension products to provide financial security at higher ages. Also, given the rising medical costs, an inherent demand for health insurance exists. These product segments present an untapped opportunity as the penetration of these products is very low.

Challenges

Competition from other asset classes and financial instruments

Insurance competes with other asset classes like physical assets (gold and property) as well as other financial instruments like fixed deposits and mutual funds for a share of household savings. In the last few years the proportion of household savings flowing into financial instruments (financial savings rate) has fallen from ~12% in FY2010 to ~8% in FY2012. This trend needs to reverse for the development of the financial services industry.

Within financial savings the proportion of insurance has increased from ~14% in FY2002 to ~24% in FY2012. The focus of the industry to increase awareness, improve customer propositions and bring in greater transparency should help in ensuring that insurance remains one of the most attractive avenues of deploying longer term retail savings.

Persistency and surrender prevention

Customer retention is one of the most important drivers for profitability of an insurance company. The surrender and persistency trend worsened for the industry in FY2013. The industry needs to focus on inculcating longer term

behaviour in the customer and the distributor. This is also one of the key regulatory priorities. The industry needs to focus on enhancing the tenure going forward to ensure sustainable and profitable growth.

Cost efficiency

Many players have seen a fall in expense ratio because of various efficiency initiatives carried out by them. However, the industry needs to reach to an even greater level of efficiency to deliver higher customer value and to make the products even more competitive with other financial products.

(f) Company strategy and key outcome

- **Enhance market leadership:** The Company would continue to focus on growth opportunities in the market with a customised regional strategy to strengthen relative position in every geography in the country.

The Company registered a growth of 17.5% in FY2013 against a decline of 23.5% in FY2012. Stronger growth of the Company, compared to an industry decline of 1.9% and private sector growth of 1.9%, resulted in an increase in market share based on retail weighted received premium from 5.9% in FY2012 to 7.0% in FY2013. Among private players, the Company maintained its leadership position and increased the market share from 16.1% in FY2012 to 18.5% in FY2013.¹¹

- **Strengthen multi-channel architecture:** The Company would strengthen its multi-channel distribution by non-linear scale-up of agency, leveraging the bancassurance franchise and focussing on quality third party distribution.

The multi-channel architecture comprising individual agency, corporate agency with banks (bancassurance) and other corporate entities, insurance broking and direct sales provides a wide distribution and service reach. The Company is present across 487 locations in India through 559 branches (at March 31, 2013) and have over 5,000 partner points of presence.

Multi-channel distribution architecture helps us in managing business cycles, reaching out to different

customer segments, and reducing concentration risk without compromising on scalability. In our experience, maintaining a balanced distribution mix enabled us to adapt to the new regulatory environment faster. As agency force required time to train and adapt to new products, bancassurance helped in keeping the momentum during the transition phase from FY2011 to FY2013 (refer chart below):

Channel mix on APE

Going forward we would continue to strengthen our multi-channel distribution platform. Agency team would focus on scaling up in a non-linear manner and the bancassurance distribution would seek to leverage the strong customer base. The focus of the third party distribution would be to build a quality business franchise with a longer term orientation. We would also endeavour to tap the direct to customer channels including online sales.

- Providing superior value proposition to customers:** The Company would aim at creating superior customer value propositions through customer centric products and service architecture. The Company would endeavour to provide a comprehensive suite of products across life, pension, and health.

We believe in providing customers with solutions to cater to varying needs through their life stages. Customers are segmented based on the income levels, life stage, life goals and risk appetite. Having a wide range of product offerings helps us meet different needs of customers and for all segments of customers.

In the last few years, volatility of the equity markets and risk averse consumer behaviour resulted in increased

demand for traditional products. In line with the private players traditional share in our product mix increased from 14.3% in FY2011 to 46% in FY2013 as indicated in the following chart.

Product Mix - based on Retail APE

In FY2013, one key initiative was to offer solutions to customers by combining products to offer a cashflow solution to the customer that meets his/her needs. This has helped us inculcate a goal based selling habit amongst our distributors and has also resulted in longer term orientation of the customer. FY2013 saw re-introduction of pension portfolio in January 2013 after regulatory clarifications were issued. We believe that pension is still an untapped opportunity and we would invest in this category to leverage its potential.

Customer service is an integral element of our value proposition to the customer. Service delivery, claims management and grievance redressal are the building blocks of our customer service proposition. To be responsive to various servicing requirements of the customer through the term of the policy, we follow multi-channel and segmented service delivery architecture. The service delivery alternatives provided include branch walk-ins, call centre support, email and web support including self-service options. The endeavour is to provide an option most suited to the preference of every customer. We have integrated technology in our service processes to provide a convenient platform for the customer. For the last few years, two-thirds of servicing transactions are made through self-service modes.

Similarly, for enhancing the claim experience, our endeavour is to make the claims process friendly and hassle free. For FY2013, the average time to settle a mortality claim has been brought down to 4 days from 5 days in FY2012. Mortality claims outstanding as of the end of the year have reduced to 20 claims in FY2013 from 52 claims in FY2012. We have worked towards streamlining internal processes to provide faster TATs to our customers and leverage our resources better. For FY2012, we had the highest claims acceptance ratio in the industry of 96.5%¹².

As a result of our initiatives, we have also seen a reduction in the number of complaints as indicated in the following chart.

Grievance Ratio*		
FY2011	FY2012	FY2013
361	214	213

*Number of grievances/policies issued in the same period (per 10'000)

- **Continued focus on efficiency of operations:** The Company would focus on cost efficiency and in particular would leverage the digital platform in improving customer experience and efficiency of operations.

Efficiency of operations has been a focus area for us as it helps us in developing a more sustainable and profitable franchise, and provide better products experience to customers. We leverage technology in all sales and service processes to expand our reach, improve cost efficiency and provide convenience to the customer. Technology has been extensively deployed in traditional areas of transaction processing, risk and control management as well as data/analytical support. In FY2013, we have expanded the scope of technology deployment to enable customer facing processes as well. Handheld devices provided to the frontline sales staff enable a structured sales process, faster turnaround, lesser paperwork and better efficiency. For FY2013, 51.7% of our new business applications and 16.7% of new business issuances (both ratios basis retail annualised premium equivalent) were done using online platforms. In addition, 19.6% of our retail renewal premium was collected online. We issued more than 960 thousand policies in FY2013 and service more than 6 million customers through physical and online modes.

The financial outcome of our relentless focus on efficiency has been a reduction of close to ₹ 8 billion in total expenses from FY2009 to FY2013 (refer table below).

Expenses and PAT	₹ billion				
	FY2009	FY2010	FY2011	FY2012	FY2013
Total expenses	32.89	29.55	25.50	23.88	24.96
- Commission	7.00	6.03	5.61	6.05	7.65
- Non commission	25.89	23.52	19.89	17.83	17.31
Profit after tax (PAT)	(7.80)	2.58	8.08	13.84	14.96
Total expense ratio*	22.0%	18.1%	16.0%	17.9%	19.2%

* Total expenses including commission (excluding unit expenses) / total premium less 90% of single premium

- **Customer retention:** The Company would strengthen mechanisms to improve the assets under management (AUM) growth by increasing renewal premium and curtailing surrenders.

In life insurance business, as the customer acquisition costs are high, the average term of stay of an existing customer has a direct bearing on the profitability. The term of a customer's stay is also, to some extent, reflective of the customer's satisfaction. We have

launched a number of initiatives to increase customer retention some of which are:

- Training distributors to push for a longer term sales pitch
- Persistency targets incorporated in sales management KPIs
- Linking distributor payout with persistency
- Proactive calling to high risk customer and customised proactive communication

¹² Excludes EdelweissTokio Life Insurance Company Limited which had settled only one claim in FY2013 (Source: IRDA Annual report for FY2012)

Given below is the persistency trend for the Company for the past few years.

- Superior risk adjusted fund performance:** The Company has in place a robust risk and investment management framework to deliver superior risk adjusted returns to customers.

The Company’s investment focus is to ensure long term safety, stability and profitability of customer’s funds. The objective is to deliver superior returns for a given level of risk to customers.

We have been consistently delivering superior returns to our customers against the benchmark in most of our funds. The fund performance since inception for our top funds as on March 31, 2013 is as shown in the following chart.

Fund performance

Benchmarks:

Preserver Fund – CRISIL Liquid Fund Index

Protector Fund – CRISIL Composite Bond Index

Balancer Fund – 65% CRISIL Composite Bond Index + 35% BSE 100

Maximiser Fund – BSE 100

- Strong financial and capital position:** We have a strong capital position which provides resilience to our Balance Sheet to comfortably manage business scenarios. The total capital infused by the promoters at ₹ 47.93 billion as at March 31, 2013 is highest in the industry and our solvency margin is 396% as against the mandated 150% (as at March 31, 2013). The Company had a profit after tax of ₹ 14.96 billion in the year ended March 31, 2013, which works out to a return of 31% on the capital invested in the Company. The profit stream in the future is expected to be stable in the years to come. The Company became the first private life insurance company in India to start paying dividends in FY2012. The aggregate dividend paid for FY2013 was ₹ 4.84 billion. AUM grew from ₹ 707.71 billion at March 31, 2012 to ₹ 741.64 billion at March 31, 2013, a growth of 4.8%. Increasing AUM is a key indicator of our market position and financial strength.

The iAAA rating given by ICRA for our claims paying ability is a testimony to the management capability and financial strength of the Company. The rating indicates fundamentally strong position and prospect of meeting policyholder obligations is the best. The claims paying ability rating takes into account strong parent support from ICICI Bank and Prudential plc, healthy market share among private sector players, well diversified distribution channel and profitability.

II. STANDALONE FINANCIAL STATEMENTS

The financial statements of the Company have been prepared and presented under the historical cost convention, unless otherwise stated, and on the accrual basis of accounting, in accordance with accounting principles generally accepted in India (Indian GAAP), in compliance with the Accounting Standards (‘AS’) notified under the Companies (Accounting Standard) Rules, 2006 (as amended) and the relevant provisions of the Companies Act, 1956 to the extent applicable, and in accordance with the provisions of the Insurance Act, 1938, Insurance Regulatory and Development Authority Act, 1999, and the regulations framed thereunder, various circulars issued by the IRDA and the practices prevailing within the insurance industry in India.

The management evaluates all recently issued or revised accounting pronouncements on an on-going basis. The estimates and assumptions used in the financial statements are based upon the management's evaluation of the relevant facts and circumstances as on the date of the financial statements. Such estimates and assumptions have been made on a prudent and reasonable basis, in order that the financial statements reflect in true and fair manner the form and substance of transactions, and reasonably present our state of affairs and financial position for the year.

a. Results from operations - Analysis of Profit and Loss and Revenue Account

New business premium increased in FY2013 as compared to FY2012. However renewal premium was lower, largely due to the decline in new business regular premium in the previous two years. As a result total premium was lower in FY2013. Investment income however rose considerably in non-linked funds primarily due to increase in average non-linked assets under management and higher yields on the Company's debt portfolio.

Commissions were higher despite a lower top-line due to the higher proportion of retail new business premium in the total premium and also due to the increase in mix of traditional products where the commission paid is normally higher. The Company continued with its cost control agenda initiated some years back and has witnessed improvement in non-commission expenses (excluding unit expenses). Benefits paid have primarily increased on account of higher surrenders.

The profit after tax for the Company increased by 8.1% to ₹ 14.96 billion for FY2013 primarily due to the continued income stream from business sold in prior years, increase in investment income and lower operating expenses. The Company continued to declare dividend during FY2013 given the healthy solvency position and sustained profitability.

- The statement below summarises the Company's Revenue and Profit and Loss accounts:

Particulars	(₹ billion)	
	FY2012	FY2013

i. Premium income

Particulars	(₹ billion)		
	FY2012	FY2013	Growth
First year premiums	36.45	41.84	14.8%
Single premiums	7.96	6.24	(21.6%)
New Business premium	44.41	48.08	8.3%
Renewal premiums	95.81	87.30	(8.9%)
Gross total premium	140.22	135.38	(3.4%)
Reinsurance premium	(0.94)	(1.21)	28.7%
Net total premium	139.28	134.17	(3.7%)

The new business premium increased by ₹ 3.67 billion (8.3% increase) from ₹ 44.41 billion in FY2012 to ₹ 48.08 billion in FY2013 however the total premium income decreased from ₹ 139.28 billion in FY2012 to ₹ 134.17 billion in FY2013, a decline of 3.7%, on account of lower renewal premium. Renewal premium decreased because the decline of new business volumes in the past few years is getting reflected in renewal premiums with a lag.

Premium income for FY2013 includes ₹ 1,235 thousand premium received from non-executive directors (₹ 1,240 thousand for FY2012). The premium was received from Mr. Rajiv Sabharwal ₹ 1,191 thousand (₹ 1,195 thousand for FY2012), Ms. Rama Bijapurkar ₹ 29 thousand (₹ 29 thousand for FY2012) and Mr. N.S. Kannan ₹ 15 thousand (₹ 15 thousand for FY2012).

ii. Investment income

Details of income from investments are given in the table below:

(₹ billion)

Particulars	FY2012			FY2013		
	Unit linked	Non-linked	Total	Unit linked	Non-linked	Total
Interest, dividend and rent	20.22	8.11	28.33	23.21	11.21	34.42

Total income/(loss) on investments	(7.50)	8.28	0.78	53.02	12.94	65.96

* includes appropriation/expropriation adjustment account in FY2012.

IRDA regulations on preparation of financial statements prescribe that the Revenue account must include income from investments earned from assets held under both unit linked and non-linked businesses. Income on investments under unit linked business though included as income in the revenue account is offset by a corresponding effect on the unit linked liabilities and does not impact the profit or loss for the period.

The total income on investments (including the unit linked business) is analysed as follows:

Interest, dividend, and rent

During FY2013 interest income, dividend and rent increased by 21.5% due to higher interest income on account of increase in average debt assets under management. The table below indicates average investments and average yield earned.

(₹ billion)

Particulars	FY2012	FY2013
Average interest earning assets	244.99	302.90
Average yield	9.1%	9.2%

Profit and Loss on sale on investments

Profits and losses are realised as the portfolio is realigned based on market conditions and expected relative attractiveness of securities and sectors going forward.

Unrealised gain/loss (unit linked portfolio)

Unrealised gains or losses result from pure marked-to-market valuation of assets held in the unit linked portfolio. The unrealised gain on investments held under the unit linked business for FY2013 was higher than FY2012 (₹ 11.98 billion gain for FY2013 and ₹ 45.06 billion loss for FY2012) primarily due to the rise in the equity markets experienced in FY2013. (Equity markets rose in FY2013 with the BSE Sensex rising by 8.2% from 17,404 as on March 31, 2012 to 18,836 as on March 30, 2013).

We evaluate the long term performance for all our unit linked funds by tracking their performance against benchmark. The Company is pleased to report that 89% of the unit linked funds covering 97% of the AUM outperformed their respective benchmarks over a five year period at March 31, 2013.

iii. Other income (including fees and charges)

Other income includes fee collected on policy reinstatement and loan processing, interest earned on loans given to policyholders. For FY2013, other income also includes ₹ 0.11 billion interest on income tax refund received on account of income tax assessment order in favour of the Company.

iv. Expenses (including commission)

Particulars	₹ billion		
	FY2012	FY2013	Growth
Commission expenses	6.05	7.65	26.4%
Non-commission expenses	17.83	17.31	(2.9%)
Unit expenses	2.28	3.21	40.8%
Total expenses	26.16	28.17	7.7%

The Company embarked on its journey of 'Growth with Efficiencies' a few years back and has since witnessed a continuous reduction in expenses year on year. As a result of the various efficiency initiatives, the Company managed to reduce expenses consistently even during cyclical top-line scenarios as shown in the table below.

The total expenses are further analysed below.

Commission (%)	1.4%	1.7%	1.3%	1.5%
Total premium	119.93	114.75	140.22	135.38
Total commission	6.03	7.65	6.05	7.65
Commission (%)	5.0%	6.7%	4.3%	5.6%

There is an increase in the total commission by 26.4% as against the decrease in premium by 3.4%. The higher commission is primarily attributable to higher proportion of retail new business premium in the total premium where the commission paid is much higher than renewal premium (the retail new business premium mix is up from 21.8% in FY2012 to 25.3% in FY2013) and also the increase in mix of traditional products where the commission paid is higher. The mix of traditional products in retail new business premium is up from 36.1% in FY2012 to 45.2% in FY2013. The commission ratio on renewal book has also increased as mix of traditional products in retail renewal premium has increased to 18.2% in FY2013 as against 8.2% in FY2012.

Non commission expenses

Non commission expenses decreased by over ~₹ 0.50 billion in FY2013 (excluding Unit expenses) as compared to FY2012, in line with the de-growth in premium.

The total non-commission expenses of the Company can be broken into the following:

Particulars	₹ billion		
	FY2012	FY2013	Growth
Employee's remuneration and welfare benefits	7.65	7.73	1.0%
Agents training, recruitment and incentives	1.84	1.65	(10.3%)
Advertisement and publicity	1.14	1.31	14.9%
Administration support expenses	1.33	1.00	(24.8%)
Rents, rates and taxes	1.14	0.96	(15.8%)
Communication expenses	0.62	0.67	8.1%
Depreciation	0.56	0.41	(26.8%)
Legal and professional charges	0.43	0.39	(9.3%)
Office running expenses	0.42	0.32	(23.8%)
Information technology cost	0.31	0.32	3.2%
Repairs	0.30	0.31	3.3%
Others*	2.09	2.24	7.2%
Total expenses excluding unit expense	17.83	17.31	(2.9%)
Unit expenses	2.28	3.21	40.8%
Total	20.11	20.52	2.0%

*Others include provision for doubtful debts and bad debts.

Unit fund expenses mainly include service tax on linked charges which is recovered from the policyholders and thus is just the pass through and hence profit and loss neutral.

v. Benefits paid

A summary of benefits paid is provided below:

Particulars	₹ billion	
	FY2012	FY2013
Surrenders	79.76	126.93
Mortality (Death) claims	2.67	3.20
Maturity and annuity claims	1.60	2.17
Survival benefits	1.16	1.36
Amount recovered from reinsurer	(0.62)	(0.80)
Total Claims	84.57	132.85

Benefits paid represent amounts paid to policyholders or their legal heirs, on occurrence of an insured event as per the contractual terms of insurance contract.

Surrenders primarily pertain to the linked portfolio where the customers are free to encash their fund value post the lock-in period.

Mortality claims continued to remain at expected levels reflecting the effectiveness of the new business underwriting process. Claims on maturity and survival reflect the age of the book and given that the Company has completed more than ten years operations there has been an increase in maturity and survival claims as many of the contracts have reached maturity or term of survival benefit payout.

The claims settlement experience for the Company has been as follows:

Sr. No.	Claims experience	₹ billion						
		Death claims	Maturity claims	Survival benefits	Annuities/Pensions	Surrender claims	Health claims	Other benefits
1	Claims outstanding (beginning of the period)	52	208	-	2,297	4,379	252	-
2	Claims reported during the period	18,546	18,132	29,752	57,059	1,221,524	22,491	267
3	Claims Settled during the period	17,986	18,178	29,752	55,092	1,224,450	18,439	262
4	Terms and condition rejections	-	-	-	-	-	3,692	-
5	Claims repudiated during the period	592	-	-	-	-	186	4
6	Claims reopened	-	-	-	-	-	-	-
7	Claims written back	-	-	-	-	-	-	-
8	Claims outstanding (End of the period)	20	162	-	4,264	1,453	426	1

In respect of mortality claims, the average time taken by the Company from the date of submission of the final requirement by the claimant to dispatch of claim payment for FY2013 was 4 days (5 days for FY2012). The outstanding mortality claims have reduced from 52 claims to 20 claims on account of the various initiatives taken by the Company.

Ageing of claims outstanding as at March 31, 2013 was as follows:

Particulars	₹ billion						
	Death claims	Maturity claims	Annuities/Pensions	Surrender claims	Health claims	Other benefits	
Claims outstanding at end of the period	20	162	4,264	1,453	426	1	
Less than 3 months	14	161	964	1,340	412	-	
3 months to 6 months	2	-	316	21	14	-	
6 months to 1 year	-	-	687	69	-	-	
1 year and above	4	1	2,297	23	-	1	

Long outstanding claims are pending due to non-submission of necessary documents or annuity option in case of annuity claims by the claimants.

vi. Change in valuation of liability is respect of life policies

Particulars	(₹ billion)	
	FY2012	FY2013
Change in non-linked reserves		
- Participating	11.43	4.22
- Non participating	12.61	22.79
Change in linked reserves		
- Non unit reserves	0.95	(0.62)
- Unit reserve	(10.09)	(2.97)
Total	14.90	23.42

This represents the change in actuarial liability set up in respect of policies in force and for policies in respect of which premium has been discontinued but a liability still exists. Change in reserves charged to the Revenue account is the difference between policy liabilities as on two Balance Sheet dates.

Reserves on both participating and non-participating policies are calculated using the gross premium method, using assumptions for interest, mortality, expense, inflation and, in the case of participating policies, future bonuses together with allowance for taxation and allocation of profits to shareholders. These assumptions are derived from analysis of actual experience, with allowance for prudent margins for adverse deviation.

There is an overall reduction in the reserves for participating line of business on account of lower participating Group business in FY2013. However there is a sharp increase in reserves for non-participating line of business due to higher mix of business from this segment.

Change in valuation of liability in respect of linked business has been taken as the value of the units standing to the credit of policyholders, using the Net Asset Value (₹ NAV) prevailing at the valuation date. The adequacy of charges under unit linked policies to meet future expenses and claims in excess of the unit reserves has been tested and provision made as appropriate. Provision has also been made for the cost of guarantee under unit linked products that carry a guarantee. The units held in respect of lapsed policies are divided into a revival reserve, which contributes to liabilities, and a fund for future appropriation, which contributes to regulatory capital. The significant change in unit reserves can be attributed to higher surrenders which have offset increase in income from investments.

vii. Taxes paid

Particulars	(₹ billion)	
	FY2012	FY2013
Deferred tax charge	0.73	0.98
Total	0.73	0.98

The Company has created a deferred tax asset on eligible tax losses to the extent it is virtually certain of realisation. During FY2013, the Company has reported accounting profits and consequently the deferred tax assets created on eligible tax losses of earlier years has been partially utilised to the extent of such profits.

b. Financial condition

The following table sets forth, on the dates indicated, the summarised Balance Sheet.

Sources of Funds

i. Equity capital and reserves (Shareholders' funds)

Equity capital

The Company's issued and subscribed share capital comprises 1,428,939,249 equity shares of face value of ₹ 10 each. Of the above, 99.80% equity shares are held by the Promoters and balance 0.20% equity shares are issued to employees' under the Company's Employee Stock Option plan.

The table below summarises shareholding pattern:

Shareholder	At March 31, 2013	
	Number of Shares	% of Holding
Promoters		
- ICICI Bank Limited	1,055,310,907	73.85
- Prudential Corporation Holdings Limited	370,784,884	25.95
Others	2,843,458	0.20
Total	1,428,939,249	100.00

There has been no capital infusion during the year except to the extent of shares allotted to employees under the Employee Stock Option plan.

The Company is subject to the minimum solvency requirements (i.e. excess of value of assets over value of insurance liabilities) prescribed by IRDA. Despite no capital addition during the year; the solvency margin was 395.7% at March 31, 2013 as against 371.0% at March 31, 2012, compared to minimum 150% solvency margin prescribed by IRDA for life insurers.

Reserves

A summary of reserves and surplus is provided in the table below:

Particulars	₹ billion	
	FY2012	FY2013
Share premium	33.64	33.65
General reserve	1.38	2.88
Fair value change account	0.21	0.48
Total	35.23	37.01
Debit balance in Profit and Loss account	19.47	11.64

The addition to the share premium is on account of shares issued under Employee Stock Option plan.

With respect to general reserves, during the current year the Company paid interim dividend of ₹ 3.43 billion. The Board of Directors further recommend payment of final dividend of ₹ 1.41 billion. The Company has accordingly transferred 10% of current year's profit amounting to ₹ 1.50 billion to general reserve as per the requirements of the Companies (Transfer of Profit to Reserves) Rules, 1975.

Fair value change account represents unrealised gain (net) on equity and mutual fund securities outstanding in Shareholders' investments as on the Balance Sheet date. Such mark to market treatment of equity and mutual

fund securities as on the reporting date is in line with requirements of Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002. Movement in fair value change account is a function of performance of the equity markets and the mix of equity and mutual funds in the portfolio.

The reduction in the debit balance of Profit and Loss account is attributable to the profit after tax earned by the Company for the year net of transfers to general reserves in accordance with the Companies (Transfer of Profit to Reserves) Rules, 1975.

ii. Policyholders' funds

A summary of Policyholders' funds is provided in the table below:

Particulars	₹ billion	
	FY2012	FY2013
Fair value change account	2.20	2.48
Revaluation reserve	0.70	0.70
Policy liabilities	83.38	110.28
Provision for linked liabilities	574.19	569.58
Funds for discontinued policies	0.67	4.30
Total	661.14	687.34

Fair value change account represents unrealised gain (net) on equity and mutual fund securities outstanding in non-linked Policyholders' investments as on the Balance Sheet date. Such mark to market treatment of equity and mutual fund securities as on the reporting date is in line with requirements of Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's report of Insurance companies) Regulations, 2002. Movement in fair value change account is a function of performance of the equity markets and the mix of equity and mutual funds in the portfolio.

The Company has an investment property held under the non-linked funds which as per the requirements of Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's report of Insurance companies) Regulations, 2002 is required to be re-valued atleast once in three years. The value of investment property is required to be disclosed at the revalued amount in the Balance Sheet and the change in carrying amount is classified under Revaluation Reserve.

The value of the investment property in accordance with the independent valuation is ₹ 0.89 billion (Historical cost: ₹ 0.19 billion). The Company on each Balance Sheet date assesses whether any impairment of Investment property has occurred.

For movement in policy liabilities and provisions for linked liabilities refer point II(a)(vi) above.

Funds for discontinued policies represent funds outstanding (pending payment to customer) on surrendered linked policies which have not completed the minimum lock in period or lapsed linked contracts where the revival period is not yet over.

iii. Funds for future appropriations (FFA)

Summary of funds for future appropriations is provided in the table below:

Particulars	(₹ billion)	
	FY2012	FY2013
FFA –Linked	3.32	1.32
FFA - Non linked	4.27	3.76
Total	7.59	5.08

FFA - linked

They represent amounts that are identified by the Appointed Actuary in respect of lapsed policies which are entitled to be revived but not likely to be revived. In line with IRDA guidelines, the reserve may be released at least to the extent of the surrender penalty that is expected to be charged on eventual termination. However, since the revival period has not expired, the reserves released as above are required to be disclosed as a separate item under the head “Funds for Future Appropriations” in the Balance Sheet and corresponding entries are required to be made in the Revenue Account (Policyholders Account) under Appropriations. These are required to be held as an earmarked reserve until the expiry of the revival period, after which the same can be released in the Profit and Loss account.

FFA - Non linked

The Insurance regulations require that the surplus under Policyholder funds can be transferred to the Shareholder funds only on the recommendation of the Appointed Actuary. Specifically under participating funds,

such recommendation can only be made in relation to bonuses declared to policyholders. Any surplus in the Policyholder Funds (excluding the unit fund) that has not been recommended for distribution to the shareholders or policyholders is held as Funds for future appropriation (FFA) – Non-linked as an earmarked reserve.

iv. Current liabilities and Provisions

Current liabilities

A summary of current liabilities is provided in the table below:

Particulars	(₹ billion)	
	FY2012	FY2013
Sundry creditors	6.83	8.12
Amount pertaining to policyholders		
- Unclaimed amount of Policyholders	3.17	4.21
- Unallocated premium	2.27	1.36
- Policyholders' claims payable	0.07	0.07
Payable to agents (Agents balances)	0.38	1.03
Taxes payable	0.16	0.23
Reinsurance premium payable	0.15	0.11
Other liabilities	3.35	3.29
Total	16.38	18.42

Sundry creditors represent amounts payable to various service providers towards goods and services availed by the Company along with the provision for the services availed/goods received but bills not received (March 31, 2013: ₹ 5.96 billion; March 31, 2012: ₹ 6.03 billion) and amount payable to counterparty for trades where settlement is pending (March 31, 2013: ₹ 2.16 billion; March 31, 2012: ₹ 0.80 billion).

Unclaimed amount of the policyholders includes the following:

- Claims settled but not paid due to reasons other than litigation - ₹ 8.7million was outstanding at March 31, 2013 (₹ 5.9 million at March 31, 2012);
- Sums due to the insured/policyholders on maturity or otherwise - ₹ 1.18 billion was outstanding at March 31 2013 (₹ 0.82 billion at March 31, 2012);
- Excess collection of premium which is refundable to the policyholders either as terms of conditions of the policy or as per law or as may be directed by the Authority but not refunded so far - ₹ 0.18 billion was outstanding as at March 31, 2013 (₹ 0.15 billion as at March 31, 2012);

- d. Cheques issued but not encashed by the policyholder / insured - ₹ 2.85 billion was outstanding as at March 31, 2012 (₹ 2.19 billion as at March 31, 2012).

Unallocated premium mainly includes premium deposit received which is pending to be allocated on issuance of an insurance policy. It also includes an amount of ₹ 1.09 billion (previous year: ₹ 0.71 billion) as premium received in advance which will be recognised as premium income on the due date of the policy. It also includes amounts which need to be refunded back to the policyholders on freelook or cancellation of policy and are outstanding in the normal process of refund.

Policyholders' claims payable represent amounts payable to the policyholders for all claims (Death, Survival, etc.) that are intimated to the Company and are outstanding due to pending investigation as a part of the normal claims process or are pending due to incomplete documentation from the policyholders.

Agents' balances represents amount payable to advisors towards commission as on the Balance Sheet date. Amount outstanding is mainly attributable to business sourced during the last month of the financial year.

Taxes payable represent tax deducted and payable under Income tax regulations, such taxes will be paid in due course within their due dates.

Other liabilities primarily include ₹ 3.19 billion received towards unit linked contracts on the last day which are transferred subsequently and hence held as a current liability (March 31, 2012: ₹ 3.12 billion).

Provisions

A summary of provisions is provided in the table below:

Particulars	(₹ billion)	
	FY2012	FY2013
Proposed dividends	1.00	1.41
Dividend distribution tax	0.16	0.24
Provision for Leave Encashment and Gratuity	0.14	0.10
Total	1.30	1.75

The Board of Directors have proposed a final dividend of ₹ 1.41 billion which would be placed before the Annual

General Meeting for approval. Dividend distribution tax is provided for in line with the tax regulations.

Company's liability towards leave encashment and gratuity is actuarially valued and is as per the requirements of revised Accounting Standard 15 (Revised) on Employee Benefits and also includes amounts provided at year end for leave which can be encashed by the employees.

Application of Funds

i. Investments

Our primary fund management objective is the safety of our investments and the stability of returns. The Company ensures that the investment portfolio is adequately diversified and adheres to high standards of quality.

A statement of investments is given below:

Particulars	(₹ billion)	
	FY2012	FY2013
Investments		
- Shareholders'	34.77	49.20
- Policyholders'	91.11	112.87
Asset held to cover linked liabilities	578.17	575.21
Total	704.05	737.28

As indicated above, total investments grew by 4.7% from ₹ 704.05 billion as at March 31, 2012 to ₹ 737.28 billion as at March 31, 2013.

78.0% of total investment assets were held in unit linked funds at March 31, 2013 as against 82.1% at March 31, 2012. The shift can be mainly attributed to a higher proportion of premium inflows in non-linked funds during FY2013. Further, of the total assets of ₹ 737.28 billion as at March 31, 2013, 51.2% of the assets were held as equity as against 55.6% at March 31, 2012.

Our investment policy seeks to address the requirements of risk management relevant to individual lines of business as well as to address policyholders' reasonable expectations. The Company ensures compliance with Insurance Regulatory and Development Authority (Investments) Regulations, 2000, which focus on the safety of the policyholders' money by having a well-diversified quality investment portfolio and transparency in terms of adequate disclosures about the portfolio.

ii. Fixed Assets

A statement of movement of fixed assets is given below

Particulars	₹ billion	
	FY2012	FY2013
Gross block	4.19	3.85
Less: Accumulated depreciation	2.43	2.20
Net block	1.76	1.65
Add: Capital work in progress	0.04	0.07
Net fixed assets	1.80	1.72

There was no significant expansion carried out by Company during the year however the Company has as a part of its cost rationalisation agenda rationalised its office infrastructure mainly by reducing the number of offices in multi branch cities or scaling down to smaller offices. This has resulted in write-off in leasehold improvements and furniture and fixtures leading to overall reduction in the net block for the year ended March 31, 2013.

iii. Deferred tax asset

The Company carried a deferred tax asset of ₹ 0.08 billion as of March 31, 2013 (as of March 31, 2012 ₹ 1.05 billion). The Deferred tax assets represent timing differences between the financial and tax books arising from brought forward tax losses. The Company assesses the likelihood that deferred tax assets will be recovered from future taxable income. The Company believes that there is virtually certainty that future profits from in-force book will realise the carry forward loss.

iv. Current assets, loans and advances

A summary of current assets, loans and advances is provided in the table below:

Particulars	₹ billion	
	FY2012	FY2013
Income accrued on investments	3.06	4.27
Cash and bank balances	2.84	3.25
Sundry Debtors (Investments)	0.42	1.86
Advance taxes and tax deducted at source	0.98	1.45
Outstanding premium	0.75	1.22
Other advances and receivables	0.80	0.55
Deposits	0.42	0.35
Prepayments	0.19	0.13
Policyholders' loans	0.10	0.09
Total	9.56	13.17

Income accrued on investments represents interest income accrued, however not due for payment as on March 31, 2013. It is mainly on fixed deposits, Government securities and debentures.

Cash and bank balances represent amounts collected during last few days of the financial year and they also include cheques on hand and cheques deposited but not cleared.

Sundry Debtors (Investments) represents amount receivable from counterparty for trades where settlement is pending.

Outstanding premium represents accrued premium income on traditional products. The increase is attributable to increase in traditional business.

Other advances primarily include advances made in the ordinary course of business for services to be availed in the future. The decrease is however attributable to receivables from the unit fund (i.e. fund management charges earned from linked funds but not received) and margin money paid for investment trades pending settlement.

Deposits represent deposits placed for premises taken on lease for setting up branches as well as for leased accommodations for employees. It also includes electricity deposits, telephone and other utility deposits. The reduction is attributable to rationalisation of offices.

v. Contingent liability

The contingent liability at March 31, 2013 increased to ₹ 1.79 billion as against ₹ 0.43 billion at March 31, 2012. The increase is attributable to a contingent liability of ₹ 1.35 billion created by the Company during FY2013 on account of objections raised by office of the Commissioner of Service tax, Mumbai during the course of service tax audit under EA Audit, 2000). The matter of contingency relates to applicability of service tax on surrender / foreclosure charges where the service tax authority has contended that these charges are liable for levy of service tax. The Company has filed a reply to the service tax authorities challenging that these charges are penal in nature and no service as such is rendered in lieu of these charges to the policyholders. The Company would be taking appropriate legal recourse to challenge any show cause notice cum demand notice on this issue if and when the same is served on the Company.

III. CONSOLIDATED FINANCIAL STATEMENTS

The Company has a wholly owned subsidiary, ICICI Prudential Pension Funds Management Company Limited (PFM). The PFM is licensed by the Pension Funds Regulatory and Development Authority for acting as a Pension Fund Manager under the National Pension System (NPS) for Indian citizens other than government employees.

The Company prepares and presents consolidated financial statements in addition to its individual financial statements. The consolidated financial statements are prepared in accordance with Accounting Standard (AS) 21 on 'Consolidated Financial Statements', prescribed in the Companies Act, 1956 ((Accounting Standard) Rules, 2006). The financials are consolidated on a line-by-line basis in accordance with AS 21.

The consolidated profit after tax of the Company including results of operations of PFM for the year ended March 31, 2013 is ₹ 14.96 billion (previous year: ₹ 13.84 billion).

During the year ended March 31, 2013, the subscribers' funds managed by PFM have reached ₹ 722.3 million (previous year: ₹ 291.9 million). For the year ended March 31, 2013 the PFM registered a loss of ₹ 1.0 million (previous year: loss of ₹ 0.4 million). The net worth of PFM at March 31, 2013 is ₹ 268.4 million (at March 31, 2012: ₹ 109.4 million) after share capital infusion of ₹ 160.0 million during the year. The current operations of PFM are thus not material in context of overall profit of the Company.

Investments in linked business are valued on mark-to-market basis.

6.2. Other than linked investments

We hereby certify that, as required by IRDA (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations 2002, all debt securities including government securities and redeemable preference shares

are considered as 'held to maturity' and accordingly measured at historical cost, subject to amortisation of premium or accretion of discount in the Revenue account or the Profit and Loss account over the period of maturity/ holding on a straight line basis. At March 31, 2013 the market value of these investments is higher by ₹ 606,893 thousand (Previous year: the market value of these investments was lower by ₹ 2,160,024 thousand). The increase in market value is attributable to the fall in yields during the year. Purchase of long term government securities is primarily with an objective of Asset Liability management and hence we continue to manage our portfolio with long-term focus.

Listed equity shares and mutual fund investments are measured at fair value. The unrealised gain at March 31, 2013 on these investments amount to ₹ 2,955,623 thousand (Previous year: Unrealised gain of ₹ 2,410,747 thousand).

Investment in real estate is valued at historical cost, subject to revaluation (at least once in every three years). The real estate investment has been re-valued during the year ended March 31, 2013 and there is no change in the carrying amount of the real estate. There was a change of ₹ 35,600 thousand in the carrying amount of the real estate during the previous year. The revaluation reserve arising out of investments in real estate was ₹ 704,479 thousand at March 31, 2013 (March 31, 2012: ₹ 704,479 thousand).

7. APPLICATION AND INVESTMENTS OF LIFE INSURANCE FUNDS

We certify that no part of the life insurance fund has been directly or indirectly applied in contravention of the provisions of the Insurance Act, 1938.

8. OVERALL RISK EXPOSURE AND STRATEGY ADOPTED TO MITIGATE THE SAME

The Company has in place an enterprise risk management (ERM) framework which recognises that risk is an integral element of the business and managed acceptance of risk is essential for the generation of shareholder value and is designed to manage risk, rather than eliminate it.

The risk governance structure of the Company consists of the Board, the Board Risk Management Committee (BRMC), the Executive Risk Committee (ERC) and its sub-

committees. The risks faced by the Company are classified into market, credit, liquidity, insurance and operational risks. The risk management model of the Company comprises a four-stage continuous cycle, namely the identification and assessment, measurement, monitoring and control of risks. The Company's risk policies for market risk, credit risk, liquidity risk, insurance risk, operational risk, outsourcing risk, reinsurance, and underwriting detail the strategy and procedures adopted to follow the risk management cycle at the enterprise level.

The Company's approach to measurement of overall exposure and strategy to mitigate the same are described below:

Risk measurement

The Company uses the following approaches to assess risk exposure to its Embedded Value and the statutory position. The Embedded Value of the Company is the present value of shareholders' interests in the earnings distributable from assets allocated to the covered business after sufficient allowance for the aggregate risks in the covered business.

- **Risk to the Embedded Value (EV):** The Company considers the 1-year Value at Risk (VaR) of the EV, calculated using estimates of 1-in-200 year economic and non-economic stress scenarios, to be the appropriate measure of risk exposure for market, credit, persistency, mortality and morbidity risks.
- **Risk to the growth of the EV:** In addition to the risk to the current EV, the Company also considers risks that impede future growth of the EV like insufficient new business profit growth and over-run in acquisition or renewal expenses, caused by adverse deviation of actual unit costs from planned unit costs.
- **Risk to the statutory position:** The Company conducts asset liability modelling on its balance sheet to assess potential impacts on its solvency cover and on its free surplus. The analysis indicates that even under reasonably foreseeable extreme economic stresses the available solvency margin would remain above 150% of the required solvency margin required by regulations.
- **Level of highly liquid assets (cash and cash equivalent) against the level of near term liabilities.**
- **Key risk indicators and loss data for operational risk.**

Risk control

Identified risk are managed by one or more of the following techniques

- Retention (acceptance),
- Avoidance,
- Transfer or,
- Reduction (mitigation).

The nature of the controls implemented and the level of control exercised are based upon the:

- Potential severity of the risk;
- Frequency of the risk occurring;
- Cost of implementing controls relative to the significance of the risk; and
- Risk Appetite.

The mitigation strategy in respect of various risks is as under:

(a) Market risk: Market risk is managed primarily through product approvals by the ERC and investment specifications.

- i. New products can significantly alter the risk profile of the Company's balance sheet. The Product approval by the ERC ensures that market risk in each new product/ modification of an existing product is within the risk appetite of the Company.
- ii. The Company categorises its products based on their risk profiles to enable appropriate asset-liability management. For each category of products, the Company has defined Investment Specifications that specify limits to permissible exposures to various asset classes along with duration guidelines for fixed income instruments. The Investment Specifications are designed appropriately to achieve the risk versus return objectives and policyholders' reasonable expectations while maintaining the risk within the Company's risk appetite and with due consideration of regulatory requirements. The mitigation strategies for different portfolios are as follows:

Category 1: Participating and non-participating endowment business

For these funds the Company's asset allocation strategy,

which includes investments in equities, is designed to achieve the twin objectives of managing risks arising from guarantees and optimising policyholder returns, subject to regulatory constraints. Asset Liability Management (ALM) is done through monthly monitoring of the equity backing ratio and debt duration against limits as applicable. The bonus declaration mechanism for participating products also helps in the smoothing of the volatility of the investment returns.

Category 2: Other conventional business – Annuity, Non-participating investment, Non-unit of unit linked business, Protection and Paid up fund of participating products

The liabilities for these lines of business are obligations to policyholders or to meet expenses and have to be met either at a fixed time or on the occurrence of a contingency. The Company manages the risk on such products by investing only in fixed income instruments. ALM is done by managing the duration gap between assets and liabilities. In addition, for certain products a cash flow matching strategy is used.

Category 3: Linked products with return and capital guarantee – Universal Life funds and Return Guarantee Funds

The Company uses a mix of stochastic and deterministic approaches to calculate the cost for providing the guarantee and holds a reserve on this account. The Company manages the investment risk arising from these products by setting limits on the equity backing ratio and debt duration.

Category 4: Linked products without guarantees

The linked portfolio without guarantees has minimal investment risk to the solvency of the Company. These funds are managed with respect to an appropriate benchmark index and do not require any active ALM.

(b) Credit risk: The Company manages the credit risk of its investments through the following measures:

- i. Exposure limits for companies, groups and industries in accordance with IRDA norms and limits as per its own Investment Policy;
- ii. Restricting investments principally to securities rated AA and above
- iii. Monitoring credit spread on corporate bonds to ensure adequate reward for credit risk taken.

iv. Engagement with select and financially sound reinsurers as per internal guidelines for reinsurance. The credit risk on reinsurance contracts are reviewed when the Company plans to enter into a relationship with a new reinsurer, or in case of significant events like credit rating downgrades of existing reinsurers.

(c) Liquidity risk: The Company faces limited liquidity risk due to the nature of its liabilities. The Company has put the following mitigants in place:

- i. The Investment Specifications for the various funds provide guidelines to manage liquidity risk either by specifying the minimum investment in overnight or cash instruments to meet near term liquidity requirements or specifying cash flow matching.
- ii. Liquidity contingency plan which is implemented when the ratio of withdrawals to daily exchange turnover breaches a pre-defined threshold.
- iii. Most of the Company's linked product terms and conditions allow us to delay the claim payouts under certain stress scenarios.

(d) Morbidity and Mortality risk: The Company uses the following approaches to manage its mortality and morbidity risk:

- i. **Product approval process:** Launching new products can significantly alter the risk profile of the Company's balance sheet. Insurance risks inherent in the new products or significant modifications to existing products are identified at the product design stage and products are launched only after approval by the ERC.
- ii. **Reinsurance:** The Company uses a combination of surplus, quota share and catastrophe reinsurance treaties with reputed and highly rated international reinsurers to manage the risk.
- iii. **Repricing:** The Company also reserves the right to review risk charges, in case of adverse experience, with IRDA approval.
- iv. **Underwriting and claims controls:** Underwriting and claims policies and procedures are in place to assess and manage the risks. The Company conducts periodic reviews of both underwriting and claims procedures.
- v. **Policy contracts:** The product coverage, exclusions and terms and conditions are designed in consultation with reinsurers and in the light of market practice to manage insurance risk.

vi. Experience analysis: The Company conducts its experience analysis regularly to ensure that corrective action can be initiated at the earliest opportunity and that assumptions are in line with experience.

(e) Persistency risk: The Company uses the following approaches to manage the risk:

- i. **Experience analysis:** The Company conducts its experience analysis regularly to ensure that corrective action can be initiated at the earliest opportunity and that assumptions used in product pricing and embedded value reporting are in line with experience.
- ii. **Product features:** The Company uses features like loyalty bonuses and additional allocation of units to encourage policyholders to continue with the policy.
- iii. **Service initiatives:** The Company uses a combination of proactive and reactive interventions to manage persistency. The interventions could include sending communication via different media like email to customers and distributors and reminders and telephonic interviews with customers.
- iv. **Aligning key performance indicators:** The Company uses different key performance indicators for different levels of hierarchy in sales and operations to align interests and ensure adequate focus on persistency.

(f) Expense risk: The Company uses the following approaches to manage the risk:

- i. **Experience analysis:** The Company actively monitors its expense levels, which are then fed back into new product pricing, calculation of reserves and management reporting. In case of any adverse deviations between actual unit costs and planned unit costs, mitigation measures are taken.
- ii. **Aligning key performance indicators:** The Company uses different key performance indicators to align interests and ensure adequate focus on expense.

(g) Operational risk: The Company uses the following approaches to manage the risk:

- i. The Company develops mitigation plans for high risk items. The Company monitors actions identified for mitigation of the risks towards improvement of its operational risk profile.

- ii. The Company actively promotes a risk awareness culture by improving understanding, communication and education amongst management, employees, contractors and vendors. They are equipped to support the operational risk management (ORM) framework in the course of their normal work. Appropriate training material is developed and cascaded to improve knowledge and promote a strong operational risk practice.
- iii. Use of insurance: The Company periodically evaluates the purchase of insurance to mitigate operational risk.
- iv. The Company has internal control policies and committees to manage operational risk including:
 - All employees are expected to accept and abide by the Employee Code of Conduct. A malpractice matrix that prescribes disciplinary action including caution, deterrent action and termination based on the nature and seriousness of non-compliant behaviour.
 - Compliance certificates need to be submitted quarterly by all relevant functions and staff.
 - Project Steering Committees with senior management members to manage execution, delivery and process management risks
 - Reputation Risk Committee to use both preventive and reactive approaches to mitigate and manage any possible source of reputation risk from adverse media reporting (online, offline and social) or legal issues.
 - Security Council responsible for ensuring that adequate measures are in place to provide for security of employees, premises, Company-owned assets (both IT and non-IT assets) and data.
 - Business Continuity Planning (BCP) policy for recovery or continuation of business activities in the event of disruption and management of the overall program through training, drills and reviews. The policy requires that the BCP plan itself remains current and is up-to-date.
 - Information Technology Security policy to control unauthorised access, use, modification, sharing or destruction of data. – IT security
 - Whistle-blower policy that facilitates reporting of observed breaches to the Code of Conduct, legal violations in relation to work related issues–, non-adherence to accounting policies and procedures, or non-compliance with the anti-bribery and anti-corruption policy.

9. OPERATIONS ABROAD

The Company has set up representative offices in the Kingdom of Bahrain and the United Arab Emirates. These representative offices do not contract liability overseas and all the policies are underwritten and issued in India.

10. CLAIMS

11. VALUATION OF INVESTMENTS

We hereby certify that the investments in debt securities except for linked business are stated at historical cost subject to amortisation of premium or accretion of discount in the Revenue account or the Profit and Loss account over the period of maturity/holding on a straight line basis. Listed equity shares and mutual fund investments are carried at fair value. Investments in venture funds and loan against policies are valued at cost. Investment in real estate is valued at historical cost, subject to revaluation (at least once in every three years and provision for impairment, if any).

The investments in linked business are valued as per the terms of the respective schemes on mark-to-market basis, as follows:

- (a) Equity shares:** All traded equity shares are valued at closing price on the National Stock Exchange of India Limited (NSE) on the valuation day (in case the securities are not listed on NSE, the last quoted closing price on the BSE Limited ('BSE') is used).
- (b) Government securities:** Bonds issued by Government of India and State Governments bonds are valued as per the valuations for Central and State government securities released by Credit Limited ('CRISIL').
- (c) Corporate debt securities:** Corporate bonds and debentures are valued on a yield to maturity basis, by using spread over the benchmark rate (matrix released by CRISIL on daily basis) to arrive at the yield for pricing the instrument. Securities with residual maturity of upto 182 days are to be valued at cost plus the difference between the redemption value and cost spread uniformly over the remaining maturity period of the instrument.
- (d) Mutual fund units:** Mutual fund units are valued at latest available net asset values of the respective fund.
- (e) Money market instruments:** Money market instruments are valued at historical cost, subject to amortisation of premium or accretion of discount over the period of maturity/holding on a straight-line basis.

(f) Venture fund investments: Investment in venture fund units is valued at the latest available net asset values of the respective fund.

(g) Fixed deposits with banks: Investments in fixed deposits are valued at cost.

(h) Others: As per market practice and the approved valuation policy of the Company.

12. REVIEW OF ASSET QUALITY

All investments are made in accordance with the Insurance Act, 1938, Insurance Regulatory and Development Authority (Investments) Regulations, 2000 as amended from time to time, Investment Policy and various other circulars/notifications/amendments issued by IRDA in this context from time to time.

Independent Auditors' Report

**To the Members of
ICICI Prudential Life Insurance Company Limited**

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of ICICI Prudential Life Insurance Company Limited (the "Company") which comprise the Balance Sheet as at March 31, 2013, the related Revenue Account (also called the "Policyholders' Account" or the "Technical Account"), the Profit and Loss Account (also called the "Shareholders' Account" or "Non-Technical Account") and the Receipts and Payments Account for the year then ended, and a summary of significant accounting policies and other explanatory information.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation of these financial statements that give a true and fair view of the Balance Sheet, the related Revenue Account, the Profit and Loss Account and the Receipts and Payments Account of the Company in accordance with accounting principles generally accepted in India, including the provisions of the Insurance Act, 1938 (the "Insurance Act"), the Insurance Regulatory and Development Authority Act, 1999 (the "IRDA Act"), the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002 (the "IRDA Financial Statements Regulations"), orders/directions issued by the Insurance Regulatory and Development Authority (the "IRDA") in this regard, read with Section 211(3C) of the Companies Act, 1956, to the extent applicable. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued

by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion and to the best of our information and according to the explanations given to us, the financial statements are prepared in accordance with the requirements of the Insurance Act, the IRDA Act, the IRDA Financial Statements Regulations and the Companies Act, 1956 to the extent applicable and in the manner so required, and give a true and fair view in conformity with the accounting principles generally accepted in India, as applicable to Insurance Companies:

- (a) in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2013;
- (b) in the case of Revenue Account, of the net surplus for the year ended on that date;
- (c) in the case of Profit and Loss Account, of the profit for the year ended on that date; and
- (d) in the case of the Receipts and Payments Account, of the receipts and payments for the year ended on that date.

OTHER MATTER

The actuarial valuation of liabilities for life policies in force is the responsibility of the Company's Appointed Actuary (the "Appointed Actuary"). The actuarial valuation of these liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists as at March 31, 2013 has been duly certified by the Appointed Actuary and in his opinion, the assumptions for such valuation are in accordance with the guidelines and norms issued by the Insurance Regulatory Development Authority ("IRDA" / "Authority") and the Actuarial Society of India in concurrence with the Authority. We have relied upon Appointed Actuary's certificate in this regard for forming our opinion on the valuation of liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists on financial statements of the Company.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by the IRDA Financial Statements Regulations, we have issued a separate certificate dated April 18, 2013 certifying the matters specified in paragraphs 3 and 4 of Schedule C to the IRDA Financial Statements Regulations.
 2. As required by the IRDA Financial Statements Regulations, read with section 227(3) of the Companies Act, 1956, we report that:

Independent Auditors' Certificate

This Certificate is in accordance with the Regulation 13 (D) (7) of the IRDA (Investment) (5th Amendment) Regulations, 2013 notified on February 16, 2013 in the Gazette of India read with subsequent clarification IRDA circular Ref: IRDA/F&I/INV/CIR/062/03/2013 dated March 26, 2013 and IRDA letter dated March 29, 2013 ("the Regulations")

1. At the request of ICICI Prudential Life Insurance Company Limited (the "Company"), we have performed the procedures stated in paragraph 2 below, for the purpose of issuing a certificate required by the Regulations, regarding the declaration and application of the Net Asset Value ("NAV") of the schemes of the Company as at March 31, 2013.
2. In this connection, we have performed the following procedures:
 - a) Obtained representation from the management that the Company has declared March 31, 2013 as a business day based on IRDA circular Ref: IRDA/F&I/INV/CIR/062/03/2013 dated March 26, 2013 for accepting application forms and that it has declared NAV for March 31, 2013;
 - b) Obtained the list of New Business applications, Renewal applications and applications for Surrender, Free – Look Cancellation, Fund Switches, Partial Withdrawal and Top Ups received in respect of Unit Linked Products on March 31, 2013 and April 1, 2013 (together referred to as "application forms"), from the Management;
 - c) Selected samples of application forms from listing mentioned in paragraph 2(b) above and for the samples selected verified whether:
 - i) the applications received on Sunday, March 31, 2013, upto 3.00 p.m. have been processed with the NAV of March 31 2013; and
 - ii) the applications received on Sunday, March 31, 2013, after 3.00 p.m. hours have been processed with the NAV of April 1, 2013.
3. The compliance with conditions stated in the Regulations is the responsibility of the Company's management. Our responsibility is to perform the above-mentioned procedures on the particulars and state our findings. We performed the above-mentioned procedures, in accordance with the Guidance Note on Audit Reports and Certificates for Special Purposes issued by the Institute of Chartered Accountants of India ("ICAI"). The above-mentioned procedures include examining evidence supporting the particulars on a test basis. Further, our scope of work did not involve us performing audit tests for the purposes of expressing an opinion on the fairness or accuracy of any of the financial information or the financial statements of the Company taken as a whole. We have not performed an audit, the objective of which would be the expression of an opinion on the financial statements, specified elements, accounts or items thereof, for the purpose of this certificate. Accordingly, we do not express such opinion.
4. Based on the procedures performed by us, as mentioned in paragraph 2 above, according to the information and explanations provided to us and representation by the Company's management, we confirm that:
 - (a) The Company had declared March 31, 2013 as a business day for accepting applications;
 - (b) The Company has declared NAV for March 31, 2013;
 - (c) The applications received on Sunday, March 31, 2013 upto 3.00 p.m. have been processed with the NAV of March 31, 2013; and
 - (d) The applications received on Sunday, March 31, 2013 after 3.00 p.m. have been processed with the NAV of the next business day i.e. April 01, 2013.
5. This certificate is issued at the request of the Company solely for use of the Company as per Regulation 13 (D) (7) of the Regulations and is not intended to be used or distributed for any other purpose.

SCHEDULE: 16

Significant accounting policies and notes forming part of the financial statements for the year ended March 31, 2013

1. Background

ICICI Prudential Life Insurance Company Limited ('the Company'), a joint venture between ICICI Bank Limited and Prudential Corporation Holdings Limited, was incorporated on July 20, 2000 as a Company under the Companies Act, 1956 ('the Act'). The Company is licensed by the Insurance Regulatory and Development Authority ('IRDA') for carrying life insurance business in India. The license has been renewed annually and is in force as at March 31, 2013.

The Company carries on business of providing life insurance, pensions and health insurance to individuals and groups. The business is conducted in participating, non-participating and unit linked lines of businesses. Riders providing additional benefits are offered under some of these products. These products are distributed through individual agents, corporate agents, banks, brokers, the Company's proprietary sales force and online.

2. Summary of significant accounting policies

2.1. Basis of preparation

The accompanying financial statements are prepared and presented under the historical cost convention, unless otherwise stated, and on the accrual basis of accounting, in accordance with accounting principles generally accepted in India (Indian GAAP), in compliance with the Accounting Standards ('AS') notified under the Companies (Accounting Standard) Rules, 2006 (as amended) and the relevant provisions of the Companies Act, 1956 to the extent applicable, and in accordance with the provisions of the Insurance Act, 1938, Insurance Regulatory and Development Authority Act, 1999, and the regulations framed thereunder, various circulars issued by the IRDA and the practices prevailing within the insurance industry in India. Accounting policies applied have been consistent with previous year except where different treatment is required as per new pronouncements made by the regulatory authorities.

The management evaluates all recently issued or revised accounting pronouncements on an ongoing basis.

2.2. Use of estimates

The preparation of financial statements in conformity with Indian GAAP requires the Company's management to make estimates and assumptions that affect the reported amount of revenues and expenses for the year, reported assets, liabilities and disclosure of contingent liabilities as on the date of the financial statements. Although the estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances as on the date of the financial statements actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively.

2.3. Revenue recognition

2.3.1. Premium income

Premium is recognised as income when due from policyholders. For unit linked business, premium is recognised as income when the associated units are created.

Premium on lapsed policies is recognised as income when such policies are reinstated.

Products with regular premium paying plans or with limited premium payment term and/or pre-determined policy term are treated as regular business with due classification into first year premium and renewal premium. Products other than aforesaid are classified as single premium.

Top up premiums paid by unit linked policyholders' are considered as single premium and recognised as income when the associated units are created.

2.3.2. Reinsurance premium ceded

Reinsurance premium ceded is accounted in accordance with the terms and conditions of the relevant treaties with the reinsurer. Profit commission on reinsurance ceded is netted off against premium ceded on reinsurance.

2.3.3. Income from investments

Interest income on investments is recognised on accrual basis. Amortisation of premium or accretion of discount on debt securities is recognised over the holding/maturity period on a straight-line basis.

Dividend income, in respect of other than linked business, is recognised when the right to receive dividend is established. Dividend income, in respect of linked business, is recognised on the 'ex-dividend date'.

Operating lease rentals on investment property are recognised as income, on a straight line basis, over the lease term. Costs related to operating and maintenance of investment property are recognised as expense in the Revenue Account.

Profit or loss on sale/redemption of debt securities for other than linked business is the difference between the sale consideration net of expenses and the weighted average amortised cost. Profit or loss on sale/redemption of debt securities for linked business is the difference between the sale consideration net of expenses and the weighted average book cost as on the date of sale.

Profit or loss on sale/redemption of equity shares and mutual fund units is the difference between the sale consideration net of expenses and the weighted average book cost. In respect of other than linked business, the profit or loss includes the accumulated changes in the fair value previously recognised under "Fair Value Change Account".

2.3.4. Income from linked fund

Income from linked funds which includes fund management charges, policy administration charges, mortality charges and other charges, if any, are recovered from the linked fund in accordance with terms and conditions of policies issued and are recognised when due.

2.3.5. Fees and charges

Interest income on loans is recognised on an accrual basis. Fees and charges also include policy reinstatement fee and loan processing fee which are recognised on receipt basis.

2.4. Appropriation / Expropriation adjustment

In accordance with the Unit Linked guidelines issued by the IRDA effective July 1, 2006, the Company followed the Appropriation/Expropriation methodology for calculating Net Asset Value ('NAV') until August 17, 2011. The Appropriation/Expropriation methodology provided for adjusting the NAV on account of 'Dealing costs'. The impact of such dealing costs is accounted for in the

Revenue account as "Income from investments" with a corresponding impact in "Change in valuation of policy liability". Corresponding adjustments are also made in "Assets held to cover linked liabilities" and the "Provisions for linked liabilities" in the Balance Sheet.

As stipulated by the IRDA vide circular no. IRDA/F&I/CIR/INV/173/08/2011 dated July 29, 2011, NAV is being computed without Appropriation/Expropriation adjustments in unit pricing with effect from August 18, 2011.

2.5. Acquisition cost

Acquisition costs are costs that vary with and are primarily related to acquisition of insurance contracts and are expensed in the period in which they are incurred.

2.6. Employee benefits

2.6.1. Short term employee benefits

All employee benefits payable within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, bonuses, short term compensated absences and other non-monetary benefits are recognised in the period in which the employee renders the related service. All short term employee benefits are accounted on undiscounted basis.

2.6.2. Long term employee benefits: Post-employment

The Company has both defined contribution and defined benefit plans. These plans are financed by the Company.

• Defined contribution plan

The Company has established defined contribution scheme for Superannuation to provide retirement benefits to its employees. Contributions to the Superannuation scheme are made on a monthly basis, when due, and charged to Revenue account and Profit and Loss account, as applicable. The expenses are booked on an undiscounted basis. The Company has no further obligation beyond the monthly contribution. The scheme is managed by ICICI Prudential Life Insurance Company Limited Superannuation Scheme.

• Defined benefit plans

Gratuity and Provident fund are defined benefit obligations.

Gratuity: Gratuity liability is governed by Payment of the Gratuity Act, 1972. The Gratuity plan of the Company provides for a lump-sum payment to vested

employees at retirement, termination of employment or resignation from employment. Vesting happens only on completion of 5 years of continuous service with the Company. However, in case of death of an employee during the course of an active employment, the gratuity is paid even if the employee has not completed 5 years of continuous service. The payment is based on employee's last drawn salary and tenure as prescribed in the Company's policy. The gratuity liability of the Company is actuarially determined at each Balance Sheet date using projected unit cost method.

The Company contributes towards net liabilities to ICICI Prudential Life Insurance Company Limited Employees' Group Gratuity Cum Life Insurance Scheme. The trustees administer contributions made to the Scheme.

The Company recognises the net obligation of the Scheme in Balance Sheet as an asset or liability, respectively in accordance with Accounting Standard (AS) 15 (revised 2005), 'Employee benefits'. The discount rate used for estimation of liability is based on Government securities yield. Gain or loss arising from change in actuarial assumptions / experience adjustments is recognised in the Revenue account and Profit or Loss account for the period in which they emerge. Expected long-term rate-of-return on assets has been determined based on historical experience and available market information.

Provident fund: Provident fund benefits are aimed at providing security to staff members and their dependants on retirement, disability or death. Both employee and the Company contribute an equal percentage of the basic salary a part of which goes to the fund, and balance portion is contributed to the government administered pension fund. The provident fund is managed by ICICI Prudential Life Insurance Company Employees' Provident Fund Trust.

The minimum rate at which the annual interest is payable by the trust to members is prescribed by the Government. The Company has an obligation to make good the shortfall, if any, between the Government prescribed rate and actual return earned by the provident fund.

2.6.3. Other long term employee benefits

Other long term employee benefits includes accumulated

compensated absences that are entitled to be carried forward for future encashment or availment, at the option of the employee subject to the rules framed by the Company which are expected to be availed or encashed beyond 12 months from the end of the year and long term retention incentive payable to employees on fulfilment of criteria prescribed the Company. The Company's liability towards accumulated compensated absences entitlement outstanding at the close of the year and long term retention incentive are determined actuarially.

2.6.4. Employee Stock Option Scheme

The Company has formulated an Employee Stock Option Scheme ('the Scheme'). The Scheme provides that eligible employees are granted options to acquire equity shares of the Company that vest in graded manner. The vested options may be exercised within a specified period. The exercise price of the option is diluted when there is a subsequent issue of shares at a price lower than the grant price.

In accordance with the Guidance Note on Accounting for Employee Share-based Payments, the cost of options is measured using the intrinsic value method and recognised, together with a corresponding increase in the "Stock options outstanding account" in reserves. The cumulative expense recognised for the options at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The expense or credit recognised in the Profit and Loss and Revenue account for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

2.7. Operating lease

Leases where the lessor effectively retains substantially all the risks and rewards of ownership are classified as operating leases. Payments made under operating lease including escalations are recognised as an expense, on a straight line basis, over the lease term.

2.8. Provision for doubtful debts

The need for provision is evaluated based on the recoverability of the dues. The Company regularly evaluates the probability of recovery against each class of asset and provides for doubtful deposits, advances and others receivables.

2.9. Benefits paid

Benefits paid comprise of policy benefits and claim settlement costs, if any.

Death, rider and surrender claims are accounted for on receipt of intimation. Survival and maturity benefits are accounted when due. Withdrawals and surrenders under linked policies are accounted in the respective schemes when the associated units are cancelled / redeemed. Reinsurance recoveries on claims are accounted for, in the same period as the related claims.

2.10. Actuarial liability valuation

Actuarial liability for life policies in force and for policies in respect of which premiums have been discontinued but a liability exists, is determined by the Company's Appointed Actuary using the gross premium method, in accordance with accepted actuarial practice, requirements of Insurance Act 1938, the IRDA regulations and the Actuarial Practice Standards and Guidance Notes issued by the Institute of Actuaries of India.

2.11. Funds for Future Appropriations

Amounts estimated by Appointed Actuary as Funds for Future Appropriations ('FFA') in respect of lapsed unit linked business, are required to be set aside in the Balance Sheet and are not available for distribution to Shareholders until the expiry of the maximum revival period. After expiry of this revival period, the Company may appropriate surplus from the Revenue Account, on the Appointed Actuary's recommendation.

2.12. Investments

Investments are made in accordance with the Insurance Act, 1938, Insurance Regulatory and Development Authority (Investments) Regulations, 2000 amended from time to time, Investment Policy of the Company and various other circulars/notifications issued by the IRDA in this context from time to time.

Investments are recorded at cost on the date of purchase, which includes brokerage and taxes, if any, but excludes pre-acquisition interest accrued as on the date of acquisition.

Bonus entitlements are recognised as investments on the 'ex- bonus date'.

Rights entitlements are recognised as investments on the 'ex-rights date'.

Any front end discount on investments is reduced from the cost of such investments.

Broken period interest paid/received is debited/credited to interest receivable account and is not included in the cost of purchase/sale.

2.12.1. Classification

Investments maturing within twelve months from the Balance Sheet date and investments made with the specific intention to dispose them off within twelve months from the Balance Sheet date are classified as short-term investments.

Investments other than short-term investments are classified as long-term investments.

2.12.2. Valuation - Other than unit linked business

All debt securities including government securities and redeemable preference shares are considered as 'held to maturity' and accordingly stated at historical cost, subject to amortisation of premium or accretion of discount in the Revenue account or the Profit and Loss account over the period of maturity/holding on a straight line basis.

Listed equity shares at the Balance Sheet date are stated at fair value being the last quoted closing price on the National Stock Exchange of India Limited ('NSE') (in case the securities are not listed on NSE, the last quoted closing price on the BSE Limited ('BSE') is used). Unlisted equity shares are stated at historical cost, subject to provision for diminution.

Mutual fund units are valued at the latest available net asset values of the respective fund.

Unrealised gains/losses arising due to changes in the fair value of listed equity shares and mutual fund units are taken to the "Fair Value Change Account" in the Balance Sheet.

Investment in real estate is valued at historical cost, subject to revaluation (at least once in every three years). The change in carrying amount of investments in real estate is taken to "Revaluation reserve" in the Balance Sheet.

Investments in venture fund units are valued at historical cost.

The Company assesses at each Balance Sheet date whether there is any indication that any investment may be impaired. In case of impairment, the carrying value of such investment is reduced to its fair value and the impairment loss is recognised in the Revenue/Profit and Loss account. However, at the Balance Sheet date if there is any indication that a previously recognised impairment loss no longer exists, then such loss is reversed and the investment is restated to that extent.

2.12.3. Valuation - Unit Linked business

Debt securities other than government securities with a residual maturity over 182 days are valued on a yield to maturity basis, by using spreads over the benchmark rate (based on the matrix released by the CRISIL Limited ('CRISIL') on daily basis) to arrive at the yield for pricing the security.

Debt securities with a residual maturity upto 182 days are valued at last valuation price plus the difference between the redemption value and last valuation price, spread uniformly over the remaining maturity period of the instrument.

Central and State government securities are valued as per the valuation provided by CRISIL.

Money market instruments are valued at historical cost, subject to accretion of discount over the period of maturity/holding on a straight-line basis.

Listed equity shares are valued at market value, being the last quoted closing price on the NSE (in case of securities not listed on NSE, the last quoted closing price on the BSE is used).

Mutual fund units are valued at the latest available net asset values of the respective fund.

Venture fund units are valued at the latest available net asset value of the respective fund.

Securities with call option are valued at the lower of the value as obtained by valuing the security upto final maturity date or the call option date. In case there are multiple call options, the security is valued at the lowest value obtained by valuing the security at various call dates or upto the final maturity date.

Securities with put option are valued at the higher of the value as obtained by valuing the security upto final maturity date or the put option date. In case there are multiple put options, the security is valued at the highest value obtained by valuing the security at various put dates or upto the final maturity date.

The securities with both put and call option on the same day would be deemed to mature on the put/call date and would be valued on a yield to maturity basis, by using spreads over the benchmark rate based on the matrix released by CRISIL.

Instruments bought on 'repo' basis are valued at cost plus interest accrued on reverse repo rate.

Unrealised gains and losses are recognised in the Revenue account.

2.12.4. Transfer of investments

Transfer of investments from Shareholders' fund to the Policyholders' fund to meet the deficit in the Policyholders' account is made at amortised/book cost or market price, whichever is lower. The transfer of investments between unit linked funds is done at the prevailing market price.

2.13. Loans

Loans are stated at historical cost, subject to provision for impairment, if any.

2.14. Fixed assets and Impairment

2.14.1. Tangible assets and depreciation

Tangible assets are stated at acquisition cost less accumulated depreciation and accumulated impairment loss, if any. Cost includes the purchase price and any cost directly attributable to bring the asset to its working condition for its intended use and other incidental expenses incurred up to that date. Subsequent expenditure incurred on tangible assets is expensed out except where such expenditure results in an increase in future benefits from the existing assets beyond its previously assessed standard of performance.

Asset costing up to ₹ 5,000 are fully depreciated in the year of acquisition.

The rates of depreciation used by the Company for various category of assets, as detailed below, are the higher of the

rates as determined based on the managements estimate of useful life or the rates prescribed in Schedule XIV to the Companies Act, 1956.

Asset	Depreciation rates
Office buildings on freehold land	1.63%
Improvement to leasehold properties	Depreciated over the lease period, subject to a maximum of 9 years
Furniture and fixtures	15%
Office equipment	25%
Information technology equipment	33.3%, except for tablets which is 50%
Communication networks and servers	25%
Motor vehicles	20%

Depreciation is provided using straight-line method ('SLM') prorated from the date of being ready to use, up to the date of sale, based on estimated useful life for each class of asset.

2.14.2. Intangibles

Intangible assets comprising software are stated at cost less amortisation. Significant expenditure on improvements to software are capitalised when it is probable that such expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standards of performance and such expenditure can be measured and attributed to the asset reliably. Subsequent expenditures are amortised over the remaining useful life of original software. Software expenses are amortised using SLM over a period of 4 years from the date of being ready to use.

2.14.3. Capital work in progress

Projects under which assets are not ready for their intended use and other capital work-in-progress are carried at cost, comprising direct cost and related incidental expenses.

2.14.4. Impairment of assets

Management periodically assesses, using external and internal sources, whether there is any indication that an asset may be impaired. If any such indication exists, an estimate of the recoverable amount of the asset unit is made. Impairment occurs where the carrying value of the asset exceeds the recoverable amount. Recoverable amount is higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of the asset and its eventual disposal. If at the Balance

Sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount, subject to a maximum of depreciable historical cost.

2.15. Foreign exchange transactions

Initial recognition:

Foreign currency transactions are recorded in the Indian Rupee, by applying to the foreign currency amount the exchange rate between the Indian Rupee and the foreign currency at the date of the transaction.

Conversion:

Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

Exchange differences:

Exchange differences are recognised as income or as expenses in the period in which they arise.

2.16. Segment reporting policies

Based on the primary segments identified under IRDA (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations 2002 ('the Regulations') read with AS 17 on "Segmental Reporting" prescribed in the Companies Act, 1956 and rules thereunder, the Company has classified and disclosed segmental information separately for Shareholders' and Policyholders'. Within Policyholders', the businesses are further segmented into Participating (Life and Pension for Group and Retail segments put together), Non-Participating, Linked (Life, Pension, Health and Group), Health and Annuity.

There are no reportable geographical segments, since all business is written in India.

The basis of allocation of expenses across segments is detailed below:

Operating expenses relating to insurance business are allocated to specific business segments in the following manner, which is applied on a consistent basis.

- Expenses that are directly identifiable to the segment are allocated on actual basis.
- Other expenses (including depreciation and amortisation), that are not directly identifiable to a business segment, are allocated on one of the following basis:
 - Number of policies
 - Weighted annualised first year premium income
 - Sum assured
 - Total premium income
 - Medical cases
 - Funds under management
 - New business commission

The basis of allocation has been decided based on the nature of the expense and its logical relationship to the various business segments.

2.17. Taxation

2.17.1. Direct taxes

Income tax expense comprises of current tax (i.e. amount of tax for the year determined in accordance with the Income Tax Act, 1961) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the year).

Current tax is measured at the amount expected to be paid to the tax authorities after taking credit for allowances and exemptions in accordance with the Income Tax Act, 1961.

The deferred tax asset and liabilities are recognised using the tax rates that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets are recognised and carried forward only to the extent there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised in future.

Deferred Tax asset in respect of unabsorbed depreciation or carried forward loss are recognised only if there is a virtual certainty of realisation of such assets. Deferred tax assets are reviewed at each Balance Sheet date and written down or written up to reflect the amount that is reasonable / virtually certain (as the case may be) to be realised.

The Company allocates income tax to the each line of business in order to ensure that the expenses pertaining

to and identifiable with a particular line of business are represented as such to enable a more appropriate presentation of the financial statements. Accordingly, tax charge/credit on surplus/deficit arising from each line of business is disclosed separately in the Revenue account.

2.17.2. Indirect taxes

Service Tax liability on life insurance service is set-off against the service tax credits available from tax paid on input services. Unutilised credits, if any, are carried forward for future set-off.

2.18. Provisions and contingencies

The Company makes a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure of a contingent liability is made when there is a possible obligation or present obligations that may, but probably will not, require an outflow of resources or it cannot be reliably estimated. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Loss contingencies arising from claims, litigation, assessment, fines, penalties, etc. are recorded when it is possible that a liability has been incurred and the amount can be reasonably estimated. Contingent assets are not recognised nor disclosed in financial statements since this may result in the recognition of income that may never be realised.

2.19. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year is adjusted for the effects of all dilutive potential equity shares.

2.20. Cash and Cash Equivalents

Cash and cash equivalents for the purpose of cash flow statement includes cash in hand, bank balances, deposits with banks and other short-term highly liquid investments with original maturities of three months or less.

3. NOTES TO ACCOUNTS

² ₹ 1,590 thousand pertain to a demand from Profession Tax authority, West Bengal.

³ ₹ 1,350,000 thousand on account of objections raised by office of the Commissioner of Service tax, Mumbai (through the Service Tax audit under EA-2000) on certain positions taken by the Company.

3.2. Actuarial method and assumptions

The actuarial liability in respect of both participating and non-participating policies is calculated using the gross premium method, using assumptions for interest, mortality, morbidity, expense and inflation and, in the case of participating policies, future bonuses together with allowance for taxation and allocation of profits to shareholders. These assumptions are determined as prudent estimates at the date of valuation with allowances for adverse deviations. No allowance is made for expected lapses.

An explicit provision has been made to allow for additional expenses that the Company may have to incur if it were to close to new business twelve months after the valuation date.

The greater of a liability calculated using discounted cash flows and unearned premium reserves is held for the unexpired portion of the risk for the general fund liabilities of linked business and attached riders. An unexpired risk reserve and a reserve in respect of claims incurred but not reported are held for one year renewable group term insurance.

The unit liability in respect of linked business has been taken as the value of the units standing to the credit of policyholders, using the Net Asset Value ('NAV') prevailing at the valuation date. The adequacy of charges under unit linked policies to meet future expenses has been tested and provision made as appropriate. Provision has also been made for the cost of guarantee under unit linked products that carry a guarantee. The units held in respect of lapsed policies are divided into a revival reserve, which contributes to liabilities, and a fund for future appropriation, which contributes to regulatory capital.

The interest rates used for valuing the liabilities are in the range of 4.43% to 6.26% per annum. (The previous year's rates were 4.93% to 6.02%).

Mortality rates used are based on the published IALM (94-96) Ultimate Mortality Table for assurances and LIC (a) 96-98 table for annuities adjusted to reflect expected experience. Morbidity rates used are based on CIBT 93

table, adjusted for expected experience, or on risk rates supplied by reinsurers.

Expenses are provided for at least at current levels in respect of renewal expenses, with no allowance for any future improvement but with an allowance for any expected worsening. Per policy renewal expenses for regular premium policies are assumed to inflate at 5.41% (The inflation assumption for the previous year was 5.20%).

3.3. Encumbrances of assets

The assets of the Company are free from all encumbrances at March 31, 2013 except to the extent assets or monies are required to be deposited as margin contributions for investment trade obligations of the Company as detailed below:

3.15. Deferred taxes

As required under AS 22, deferred tax asset is recognised on carry forward of eligible tax losses, which can be set off against future taxable income and on timing differences arising from funds for future appropriation under linked line of business. Deferred tax assets are reviewed at each Balance Sheet date and written down or written up to reflect the amount that is virtually certain to be realised. Deferred tax asset is recognised on the Company's eligible tax losses to the extent that there is virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax asset can be realised.

At March 31, 2013, ₹ 12,828 thousand represents deferred tax asset on carry forward unabsorbed losses (Previous year: ₹ 860,260 thousand).

(₹ '000)

• Provident fund

The defined benefit obligation of interest rate guarantee on exempt provident fund in respect of the employees of the Company has been determined based on the Guidance Note (GN 29) on Valuation of Interest Rate Guarantees on exempt Provident Funds under AS 15 (Revised) issued by The Institute of Actuaries of India. As there is net surplus in the plan, no liability needs to be provided for in the books of accounts of the Company.

The assumptions used in valuing the defined benefit obligations of interest rate guarantee are as follows:

Particulars	March 31, 2013	March 31, 2012
Discount rate for the term of the obligation	7.8%	8.3%
Average historic yield on the investment portfolio	8.9%	9.0%
Discount rate for the remaining term to maturity of the investment portfolio	8.0%	8.6%
Expected investment return	8.7%	8.7%
Guaranteed rate of return	8.5%	8.3%

c) Other long term benefits:

Long term incentive scheme: Liability for the scheme is determined based on actuarial valuation which has been

carried out using the projected accrued benefit method which is same as the projected unit credit method in respect of past service. The assumptions used for valuation are:

Particulars	March 31, 2013
Discount rate	7.8% per annum
Increase in incentive amount	0.0% per annum

Compensated absence: Liability for compensated absence for employees is determined based on actuarial valuation which has been carried out using the projected accrued benefit method which is same as the projected unit credit method in respect of past service. The assumptions used for valuation are:

(₹ '000)

Particulars	March 31, 2013
Discount rate	7.8% per annum
Salary escalation rate (per annum)	
Grade I and II	5.0%
Grade III and above	
- Year 1	10.0%
- Year 2 to 3	8.0%
- Year 4 to 6	7.0%
- Year 7 onwards	5.0%

The Company policy allows accumulation of leave of 90 days for employees who are in continuous employment of 5 years and above with the Company and 60 days with employees with lesser vintage and certain junior grades.

While computing liability, 2% leave availment has been assumed for each subsequent year following the valuation date.

3.25. Employee Stock Option Scheme ("ESOS")

There are presently six ESOS schemes in force by name Founder I, Founder II, 2004-05, 2005-06, 2006-07 and 2007-08, salient features of which are as stated below:

Date of allotment	Founder I	2004-05	2005-06	2006-07 & Founder II	2007-08

Exercise price of options is subject to dilution formula and it depends on the capital base of the Company as at the date of exercise of the options. Exercise price of all the options outstanding as at March 31, 2013 for Founder I (2003-04) scheme, 2004-2005 scheme, 2005-06 scheme, 2006-07 scheme, Founder II and 2007-08 scheme is ₹ 30, ₹ 42, ₹ 70, ₹ 130, ₹ 130 and ₹ 400 respectively.

A summary of status of Company's Employee Stock Option Scheme in terms of options granted, forfeited and exercised is given below:

Particulars	At March 31, 2013	At March 31, 2012
Outstanding at the beginning of the year	12,778,898	13,565,154
Add: Granted during the year	-	-
Less: Forfeited / lapsed during the year	(401,169)	(398,281)
Exercised during the year	(90,125)	(387,975)
Outstanding at the end of the year	12,287,604	12,778,898
Exercisable at the end of the year	12,287,604	11,256,348

During the year, the Company has recognised a compensation cost of ₹ Nil (Previous year: ₹ Nil) as the intrinsic value of the options.

Had the Company followed the fair value method for valuing its options for the year, the charge to the Revenue account and Profit & Loss account would have been higher by ₹ 2,416 thousand (Previous year: ₹ 34,322 thousand)

and profit after tax would have been ₹ 14,956,976 thousand (Previous year: ₹ 13,807,415 thousand). Consequently Company's basic earnings per share would have been ₹ 10.47 (Previous year: ₹ 9.67) and diluted earnings per share would have been ₹ 10.44 (Previous year: ₹ 9.64).

The weighted average price of options exercised during the year is ₹ 70.00 (Previous year: ₹ 94.00). The weighted average remaining contractual life of options outstanding at the end of the period is 4.10 years (Previous year: 5.10 years). The key assumptions used to estimate fair value of options are:

Particulars	Assumptions
Risk-free interest rate	6.87% - 8.00%
Expected life	3 - 5 years
Expected volatility	28.65%
Expected dividend yield	1.50%

3.26. Foreign exchange gain/loss

Transactions in foreign currencies are recorded at exchange rate prevailing on the date of transaction. The exchange difference between the rate prevailing on the date of transaction and on the date of settlement is recognised as income or expense, as the case may be. The net foreign exchange loss debited to Revenue account for the year ended March 31, 2013 is ₹ 3,061 thousand (previous year loss ₹ 912 thousand).

Independent Auditors' Report

To the Members of ICICI Prudential Life Insurance Company Limited

REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS

We have audited the accompanying consolidated financial statements of ICICI Prudential Life Insurance Company Limited (the "Company") and its subsidiary, which comprise the consolidated Balance Sheet as at March 31, 2013, the related consolidated Revenue Account (also called the "Policyholders' Account" or the "Technical Account"), the consolidated Profit and Loss Account (also called the "Shareholders' Account" or "Non-Technical Account") and the consolidated Receipts and Payments Account for the year then ended, and a summary of significant accounting policies and other explanatory information.

MANAGEMENT'S RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

Management is responsible for the preparation of these consolidated financial statements that give a true and fair view of the consolidated Balance sheet, the related consolidated Revenue Account, the consolidated Profit and Loss Account and the consolidated Receipts and Payments Account of the Company in accordance with accounting principles generally accepted in India, including the provisions of The Insurance Act, 1938 (the "Insurance Act"), the Insurance Regulatory and Development Authority Act, 1999 (the "IRDA Act"), the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002 (the "IRDA Financial Statements Regulations"), orders/directions issued by the Insurance Regulatory and Development Authority (the "IRDA") in this regard, read with Section 211(3C) of the Companies Act, 1956 to the extent applicable. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are

free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion and to the best of our information and according to the explanations given to us, the consolidated financial statements are prepared in accordance with the requirements of the Insurance Act, the IRDA Act, the IRDA Financial Statements Regulations and the Companies Act, 1956 to the extent applicable and in the manner so

required, and give a true and fair view in conformity with the accounting principles generally accepted in India, as applicable to Insurance Companies:

- (a) in the case of the consolidated Balance Sheet, of the state of affairs of the Company as at March 31, 2013;
- (b) in the case of consolidated Revenue Account, of the net surplus for the year ended on that date;
- (c) in the case of consolidated Profit and Loss Account, of the profit for the year ended on that date; and
- (d) in the case of the consolidated Receipts and Payments Account, of the receipts and payments for the year ended on that date.

OTHER MATTERS

1. The actuarial valuation of liabilities for life policies in force is the responsibility of the Company's Appointed Actuary (the "Appointed Actuary"). The actuarial valuation of these liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists as at March 31, 2013 has been duly certified by the Appointed Actuary and

in his opinion, the assumptions for such valuation are in accordance with the guidelines and norms issued by the Insurance Regulatory Development Authority ("IRDA") ("Authority") and the Actuarial Society of India in concurrence with the Authority. We have relied upon Appointed Actuary's certificate in this regard for forming our opinion on the valuation of liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists on consolidated financial statements of the Company.

2. We did not audit total assets of ₹ 277,996 thousand as at March 31, 2013, total revenues of ₹ 17,211 thousand and net cash outflows amounting to ₹ 36 thousand for the year then ended, included in the accompanying consolidated financial statements in respect of a subsidiary whose financial statements and other financial information have been audited by other auditors and whose report have been furnished to us. Our opinion, in so far as it relates to the affairs of such subsidiary is based solely on the report of other auditors. Our opinion is not qualified in respect of this matter.

2. Summary of significant accounting policies

2.1. Basis of preparation

The accompanying consolidated financial statements are prepared and presented under the historical cost convention, unless otherwise stated, and on the accrual

basis of accounting, in accordance with accounting principles generally accepted in India (Indian GAAP) and in accordance with Accounting Standard – 21 "Consolidated Financial Statements" and other Accounting Standards ('AS') notified under the Companies (Accounting Standard) Rules, 2006 (as amended) and the relevant provisions of the Companies Act, 1956 to the extent applicable, and in accordance with the provisions of the Insurance Act, 1938, Insurance Regulatory and Development Authority Act, 1999, and the regulations framed thereunder, various circulars issued by the IRDA and the practices prevailing within the insurance industry in India. Accounting policies applied have been consistent with previous year except where different treatment is required as per new pronouncements made by the regulatory authorities.

The management evaluates all recently issued or revised accounting pronouncements on an ongoing basis.

2.2. Use of estimates

The preparation of financial statements in conformity with Indian GAAP requires the Company's management to make estimates and assumptions that affect the reported amount of revenues and expenses for the year, reported assets, liabilities and disclosure of contingent liabilities as on the date of the financial statements. Although the estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances as on the date of the financial statements actual results could differ from those estimates. Any revision to accounting estimates is recognised prospectively.

2.3. Revenue recognition

2.3.1. Premium income

Premium is recognised as income when due from policyholders. For linked business, premium is recognised as income when the associated units are created.

Premium on lapsed policies is recognised as income when such policies are reinstated.

Products with regular premium paying plans or with limited premium payment term and/or pre-determined policy term are treated as regular business with due classification into first year premium and renewal premium. Products other than aforesaid are classified as single premium.

Top up premiums paid by unit linked policyholders' are considered as single premium and recognised as income when the associated units are created.

2.3.2. Reinsurance premium ceded

Reinsurance premium ceded is accounted in accordance with the terms and conditions of the relevant treaties with the reinsurer. Profit commission on reinsurance ceded is netted off against premium ceded on reinsurance.

2.3.3. Income from investments

Interest income on investments is recognised on accrual basis. Amortisation of premium or accretion of discount on debt securities is recognised over the holding/maturity period on a straight-line basis.

Dividend income, in respect of other than linked business, is recognised when the right to receive dividend is established. Dividend income, in respect of linked business, is recognised on the 'ex-dividend date'.

Operating lease rentals on investment property are recognised as income, on a straight line basis, over the lease term. Costs are recognised as expense in the Revenue Account.

Profit or loss on sale/redemption of debt securities for other than linked business is the difference between the sale consideration net of expenses and the weighted average amortised cost. Profit or loss on sale/redemption of debt securities for linked business is the difference between the sale consideration net of expenses and the weighted average book cost as on the date of sale.

Profit or loss on sale/redemption of equity shares and mutual fund units is the difference between the sale consideration net of expenses and the weighted average book cost. In respect of other than linked business, the profit or loss includes the accumulated changes in the fair value previously recognised under "Fair Value Change Account".

2.3.4. Income from linked fund

In case of Life Insurance business, income from linked funds which includes fund management charges, policy administration charges, mortality charges and other charges, if any, are recovered from the linked fund in

accordance with terms and conditions of policies issued and are recognised when due.

2.3.5. Fees and charges

In case of Life Insurance business, interest income on loans is recognised on an accrual basis. Fees and charges also include policy reinstatement fee and loan processing fee which are recognised on receipt basis.

In case of Pension Fund Management business, Investment management fees are recognised on an accrual basis in accordance with the terms of contract between the Subsidiary and the National Pension System Trust, established by the PFRDA.

2.4. Appropriation / Expropriation adjustment

In accordance with the Unit Linked guidelines issued by the IRDA effective July 1, 2006, the Company followed the Appropriation/Expropriation methodology for calculating Net Asset Value ('NAV') until August 17, 2011. The Appropriation/Expropriation methodology provided for adjusting the NAV on account of 'Dealing costs'. The impact of such dealing costs is accounted for in the Revenue account as "Income from investments" with a corresponding impact in "Change in valuation of policy liability". Corresponding adjustments are also made in "Assets held to cover linked liabilities" and the "Provisions for linked liabilities" in the Balance Sheet.

As stipulated by the IRDA vide circular no. IRDA/F&I/CIR/INV/173/08/2011 dated July 29, 2011, NAV is being computed without Appropriation/Expropriation adjustments in unit pricing with effect from August 18, 2011.

2.5. Acquisition cost

Acquisition costs are costs that vary with and are primarily related to acquisition of insurance contracts and are expensed in the period in which they are incurred.

2.6. Employee benefits

2.6.1. Short term employee benefits

All employee benefits payable within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, bonuses, short term compensated absences and other non-monetary benefits are recognised in the period in which the employee renders

the related service. All short term employee benefits are accounted on undiscounted basis.

2.6.2. Long term employee benefits: Post-employment

The Company has both defined contribution and defined benefit plans. These plans are financed by the Company.

Defined contribution plan

The Company has established defined contribution scheme for Superannuation to provide retirement benefits to its employees. Contributions to the Superannuation scheme are made on a monthly basis, when due, and charged to Revenue account and Profit and Loss account, as applicable. The expenses are booked on an undiscounted basis. The Company has no further obligation beyond the monthly contribution. The scheme is managed by ICICI Prudential Life Insurance Company Limited Superannuation Scheme.

Defined benefit plans

Gratuity and Provident fund are defined benefit obligations.

Gratuity: Gratuity liability is governed by Payment of the Gratuity Act, 1972. The Gratuity plan of the Company provides for a lump-sum payment to vested employees at retirement, termination of employment or resignation from employment. Vesting happens only on completion of 5 years of continuous service with the Company. However, in case of death of an employee during the course of an active employment, the gratuity is paid even if the employee has not completed 5 years of continuous service. The payment is based on employee's last drawn salary and tenure as prescribed in the Company's policy. The gratuity liability of the Company is actuarially determined at each Balance Sheet date using projected unit cost method.

The Company contributes towards net liabilities to ICICI Prudential Life Insurance Company Limited Employees' Group Gratuity Cum Life Insurance Scheme. The trustees administer contributions made to the Scheme.

The Company recognises the net obligation of the Scheme in Balance Sheet as an asset or liability, respectively in accordance with Accounting Standard (AS) 15 (revised 2005), 'Employee benefits'. The discount rate used for estimation of liability is based on Government securities yield. Gain or loss arising from change in actuarial assumptions / experience adjustments is recognised in

the Revenue account and Profit or Loss account for the period in which they emerge. Expected long-term rate-of-return on assets has been determined based on historical experience and available market information.

Provident fund: Provident fund benefits are aimed at providing security to staff members and their dependants on retirement, disability or death. Both employee and the Company contribute an equal percentage of the basic salary a part of which goes to the fund, and balance portion is contributed to the government administered pension fund. The provident fund is managed by ICICI Prudential Life Insurance Company Employees' Provident Fund Trust.

The rate at which the annual interest is payable by the trust to members is prescribed by the Government. The Company has an obligation to make good the shortfall, if any, between the Government prescribed rate and actual return earned by the provident fund.

2.6.3. Other long term employee benefits

Other long term employee benefits includes accumulated compensated absences that are entitled to be carried forward for future encashment or availment, at the option of the employee subject to the rules framed by the Company which are expected to be availed or encashed beyond 12 months from the end of the year and long term retention incentive payable to employees on fulfilment of criteria prescribed the Company. The Company's liability towards accumulated compensated absences entitlement outstanding at the close of the year and long term retention incentive are determined actuarially.

2.6.4. Employee Stock Option Scheme

The Company has formulated an Employee Stock Option Scheme ('the Scheme'). The Scheme provides that eligible employees are granted options to acquire equity shares of the Company that vest in graded manner. The vested options may be exercised within a specified period. The exercise price of the option is diluted when there is a subsequent issue of shares at a price lower than the grant price.

In accordance with the Guidance Note on Accounting for Employee Share-based Payments, the cost of options is measured using the intrinsic value method and recognised, together with a corresponding increase in the "Stock

options outstanding account" in reserves. The cumulative expense recognised for the options at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Company's best estimate of the number of equity instruments that will ultimately vest. The expense or credit recognised in the Profit and Loss and Revenue account for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

2.7. Operating lease

Leases where the lessor effectively retains substantially all the risks and rewards of ownership are classified as operating leases. Payments made under operating lease including escalations are recognised as an expense, on a straight line basis, over the lease term.

2.8. Provision for doubtful debts

The need for provision is evaluated based on the recoverability of the dues. The Company regularly evaluates the probability of recovery against each class of asset and provides for doubtful deposits, advances and others receivables.

2.9. Benefits paid

Benefits paid comprise of policy benefits and claim settlement costs, if any.

Death, rider and surrender claims are accounted for on receipt of intimation. Survival and maturity benefits are accounted when due. Withdrawals and surrenders under linked policies are accounted in the respective schemes when the associated units are cancelled / redeemed. Reinsurance recoveries on claims are accounted for, in the same period as the related claims.

2.10. Actuarial liability valuation

Actuarial liability for life policies in force and for policies in respect of which premiums have been discontinued but a liability exists, is determined by the Company's Appointed Actuary using the gross premium method, in accordance with accepted actuarial practice, requirements of Insurance Act 1938, the IRDA regulations and the Actuarial Practice Standards and Guidance Notes issued by the Institute of Actuaries of India.

2.11. Funds for Future Appropriations

Amounts estimated by Appointed Actuary as Funds for Future Appropriations ('FFA') in respect of lapsed unit linked business, are required to be set aside in the Balance Sheet and are not available for distribution to Shareholders until the expiry of the maximum revival period. After expiry of this revival period, the Company may appropriate surplus from the Revenue Account, on the Appointed Actuary's recommendation.

2.12. Investments

Investments are made in accordance with the Insurance Act, 1938, Insurance Regulatory and Development Authority (Investments) Regulations, 2000 amended from time to time, Investment Policy of the Company and various other circulars/notifications issued by the IRDA in this context from time to time.

Investments are recorded at cost on the date of purchase, which includes brokerage and taxes, if any, but excludes pre-acquisition interest accrued as on the date of acquisition.

Bonus entitlements are recognised as investments on the 'ex-bonus date'.

Rights entitlements are recognised as investments on the 'ex-rights date'.

Any front end discount on investments is reduced from the cost of such investments.

Broken period interest paid/received is debited/credited to interest receivable account and is not included in the cost of purchase/sale.

2.12.1. Classification

Investments maturing within twelve months from the Balance Sheet date and investments made with the specific intention to dispose them off within twelve months from the Balance Sheet date are classified as short-term investments.

Investments other than short-term investments are classified as long-term investments.

2.12.2. Valuation – Unit Linked business

Debt securities other than government securities with a residual maturity over 182 days are valued on a yield to maturity basis, by using spreads over the benchmark

rate (based on the matrix released by the Credit Limited ('CRISIL') on daily basis) to arrive at the yield for pricing the security.

Debt securities with a residual maturity upto 182 days are valued at last valuation price plus the difference between the redemption value and last valuation price, spread uniformly over the remaining maturity period of the instrument.

Central and State government securities are valued as per the valuation provided by CRISIL.

Money market instruments are valued at historical cost, subject to accretion of discount over the period of maturity/holding on a straight-line basis.

Listed equity shares are valued at market value, being the last quoted closing price on the NSE (in case of securities not listed on NSE, the last quoted closing price on the BSE is used).

Mutual fund units are valued at the latest available net asset values of the respective fund.

Venture fund units are valued at the latest available net asset value of the respective fund.

Securities with call option are valued at the lower of the value as obtained by valuing the security upto final maturity date or the call option date. In case there are multiple call options, the security is valued at the lowest value obtained by valuing the security at various call dates or upto the final maturity date.

Securities with put option are valued at the higher of the value as obtained by valuing the security upto final maturity date or the put option date. In case there are multiple put options, the security is valued at the highest value obtained by valuing the security at various put dates or upto the final maturity date.

The securities with both put and call option on the same day would be deemed to mature on the put/call date and would be valued on a yield to maturity basis, by using spreads over the benchmark rate based on the matrix released by CRISIL.

Instruments bought on 'repo' basis are valued at cost plus interest accrued on reverse repo rate.

Unrealised gains and losses are recognised in the Revenue account.

2.12.3. Valuation - Other than unit linked business

In case of Life Insurance business, all debt securities including government securities and redeemable preference shares are considered as 'held to maturity' and accordingly stated at historical cost, subject to amortisation of premium or accretion of discount in the Revenue account or the Profit and Loss account over the period of maturity/holding on a straight line basis.

Listed equity shares at the Balance Sheet date are stated at fair value being the last quoted closing price on the National Stock Exchange of India Limited ('NSE') (in case the securities are not listed on NSE, the last quoted closing price on the BSE Limited ('BSE') is used). Unlisted equity shares are stated at historical cost, subject to provision for diminution.

Mutual fund units are valued at the latest available net asset values of the respective fund.

Unrealised gains/losses arising due to changes in the fair value of listed equity shares and mutual fund units are taken to the "Fair Value Change Account" in the Balance Sheet.

Investment in real estate is valued at historical cost, subject to revaluation (at least once in every three years). The change in carrying amount of investments in real estate is taken to "Revaluation reserve" in the Balance Sheet.

Investments in venture fund units are valued at historical cost.

The Company assesses at each Balance Sheet date whether there is any indication that any investment may be impaired. In case of impairment, the carrying value of such investment is reduced to its fair value and the impairment loss is recognised in the Revenue/Profit and Loss account. However, at the Balance Sheet date if there is any indication that a previously recognised impairment loss no longer exists, then such loss is reversed and the investment is restated to that extent.

2.12.4. Valuation- Pension fund management business

Current investments are carried at lower of cost or fair value determined on an individual investment basis. Non-current investments are carried at cost.

2.12.5. Transfer of investments

In case if Life insurance business, transfer of investments from Shareholders’ fund to the Policyholders’ fund to meet the deficit in the Policyholders’ account is made at amortised/book cost or market price, whichever is lower. The transfer of investments between unit liked funds is done at the prevailing price.

2.13. Loans

Loans are stated at historical cost, subject to provision for impairment, if any.

2.14. Fixed assets and Impairment

2.14.1. Tangible assets and depreciation

Tangible assets are stated at acquisition cost less accumulated depreciation and accumulated impairment loss, if any. Cost includes the purchase price and any cost directly attributable to bring the asset to its working condition for its intended use and other incidental expenses incurred up to that date. Subsequent expenditure incurred on tangible assets is expensed out except where such expenditure results in an increase in future benefits from the existing assets beyond it’s previously assessed standard of performance.

Asset costing up to ₹ 5,000 are fully depreciated in the year of acquisition.

The rates of depreciation used by the Company for various category of assets, as detailed below, are the higher of the rates as determined based on the managements estimate of useful life or the rates prescribed in Schedule XIV to the Companies Act, 1956.

Asset	Depreciation rates
Office buildings on freehold land	1.63%
Improvement to leasehold properties	Depreciated over the lease period, subject to a maximum of 9 years
Furniture and fixtures	15%
Office equipment	25%
Information technology equipment	33.3%, except for tablets which is 50%
Communication networks and servers	25%
Motor vehicles	20%

Depreciation is provided using straight-line method (‘SLM’) prorated from the date of being ready to use, up to the date of sale, based on estimated useful life for each class of asset.

2.14.2. Intangibles

Intangible assets comprising software are stated at cost less amortisation. Significant expenditure on improvements to software are capitalised when it is probable that such expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standards of performance and such expenditure can be measured and attributed to the asset reliably. Subsequent expenditures are amortised over the remaining useful life of original software. Software expenses are amortised using SLM over a period of 4 years from the date of being ready to use.

2.14.3. Capital work in progress

Projects under which assets are not ready for their intended use and other capital work-in-progress are carried at cost, comprising direct cost and related incidental expenses.

2.14.4. Impairment of assets

Management periodically assesses, using external and internal sources, whether there is any indication that an asset may be impaired. If any such indication exists, an estimate of the recoverable amount of the asset unit is made. Impairment occurs where the carrying value of the asset exceeds the recoverable amount. Recoverable amount is higher of an asset’s net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of the asset and its eventual disposal. If at the Balance Sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount, subject to a maximum of depreciable historical cost.

2.15. Foreign exchange transactions

Initial recognition: Foreign currency transactions are recorded in the Indian Rupee, by applying to the foreign currency amount the exchange rate between the Indian Rupee currency and the foreign currency at the date of the transaction.

Conversion: Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the

transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

Exchange differences: Exchange differences are recognised as income or as expenses in the period in which they arise.

2.16. Segment reporting policies

In case of Life insurance business, based on the primary segments identified under IRDA (Preparation of Financial Statements and Auditors' Report of Insurance Companies) Regulations 2002 ('the Regulations') read with AS 17 on "Segmental Reporting" prescribed in the Companies Act, 1956 and rules thereunder, the Company has classified and disclosed segmental information separately for Shareholders' and Policyholders'. Within Policyholders', the businesses are further segmented into Participating (Life and Pension for Group and Retail segments put together), Non-Participating, Linked (Life, Pension, Health and Group), Health and Annuity.

There are no reportable geographical segments, since all business is written in India.

The basis of allocation of expenses across segments is detailed below:

Operating expenses relating to insurance business are allocated to specific business segments in the following manner, which is applied on a consistent basis.

- Expenses that are directly identifiable to the segment are allocated on actual basis.
- Other expenses (including depreciation and amortisation), that are not directly identifiable to a business segment, are allocated on one of the following basis:
 - Number of policies
 - Weighted annualised first year premium income
 - Sum assured
 - Total premium income
 - Medical cases
 - Funds under management
 - New business commission

The basis of allocation has been decided based on the nature of the expense and its logical relationship to the various business segments.

2.17. Taxation

2.17.1. Direct taxes

Income tax expense comprises of current tax (i.e. amount of tax for the year determined in accordance with the Income Tax Act, 1961) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the year).

Current tax is measured at the amount expected to be paid to the tax authorities after taking credit for allowances and exemptions in accordance with the Income Tax Act, 1961.

The deferred tax asset and liabilities are recognised using the tax rates that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets are recognised and carried forward only to the extent there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised in future.

Deferred Tax asset in respect of unabsorbed depreciation or carried forward loss are recognised only if there is a virtual certainty of realisation of such assets. Deferred tax assets are reviewed at each Balance Sheet date and written down or written up to reflect the amount that is reasonable / virtually certain (as the case may be) to be realised.

The Company allocates income tax to the each line of business in order to ensure that the expenses pertaining to and identifiable with a particular line of business are represented as such to enable a more appropriate presentation of the financial statements. Accordingly, tax charge/credit on surplus/deficit arising from each line of business is disclosed separately in the Revenue account.

2.17.2. Indirect taxes

Service Tax liability on life insurance service and fund management charges is set-off against the service tax credits available from tax paid on input services. Unutilised credits, if any, are carried forward for future set-off.

2.18. Provisions and contingencies

The Company makes a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure of

a contingent liability is made when there is a possible obligation or present obligations that may, but probably will not, require an outflow of resources or it cannot be reliably estimated. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Loss contingencies arising from claims, litigation, assessment, fines, penalties, etc. are recorded when it is possible that a liability has been incurred and the amount can be reasonably estimated. Contingent assets are not recognised nor disclosed in financial statements since this may result in the recognition of income that may never be realised.

2.19. Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of

calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year is adjusted for the effects of all dilutive potential equity shares.

2.20. Cash and Cash Equivalents

Cash and cash equivalents for the purpose of cash flow statement includes cash in hand, bank balances, deposits with banks and other short-term highly liquid investments with original maturities of three months or less.

2.21. Transfer pricing policy

All the transactions between the Company and its subsidiary are on arm's length basis. The Company and its Subsidiary have formally defined and agreed on a transfer pricing policy whereby all common costs are allocated on actual cost basis.

1. The Company has entered into an agreement with Dr. Balabhai Nanavati Hospital to provide service with respect to health claims settlements and thus performance bank guarantee of ₹ 500 thousand (Previous year: ₹ 500 thousand) in this regard is placed with the hospital. ₹ 1,000 thousand (Previous year: ₹ 1,000 thousand) guarantee placed with Pension Funds Regulatory and Development Authority ('PFRDA').
2. ₹ 1,590 thousand pertain to a demand from Profession Tax authority, West Bengal.
3. ₹ 1,350,000 thousand on account of objections raised by office of the Commissioner of Service tax, Mumbai (through the Service Tax audit under EA-2000) on certain positions taken by the Company.

3.2. Actuarial method and assumptions

The actuarial liability in respect of both participating and non-participating policies is calculated using the gross premium method, using assumptions for interest, mortality, morbidity, expense and inflation and, in the case of participating policies, future bonuses together with allowance for taxation and allocation of profits to shareholders. These assumptions are determined as prudent estimates at the date of valuation with allowances for adverse deviations. No allowance is made for expected lapses.

An explicit provision has been made to allow for additional expenses that the Company may have to incur if it were to close to new business twelve months after the valuation date.

The greater of a liability calculated using discounted cash flows and unearned premium reserves is held for the unexpired portion of the risk for the general fund liabilities of linked business and attached riders. An unexpired risk reserve and a reserve in respect of claims incurred but

not reported are held for one year renewable group term insurance.

The unit liability in respect of linked business has been taken as the value of the units standing to the credit of policyholders, using the Net Asset Value ('NAV') prevailing at the valuation date. The adequacy of charges under unit linked policies to meet future expenses has been tested and provision made as appropriate. Provision has also been made for the cost of guarantee under unit linked products that carry a guarantee. The units held in respect of lapsed policies are divided into a revival reserve, which contributes to liabilities, and a fund for future appropriation, which contributes to regulatory capital.

The interest rates used for valuing the liabilities are in the range of 4.43% to 6.26% per annum. (The previous year's rates were 4.93% to 6.02%).

Mortality rates used are based on the published IALM (94-96) Ultimate Mortality Table for assurances and LIC

(a) 96-98 table for annuities adjusted to reflect expected experience. Morbidity rates used are based on CIBT 93 table, adjusted for expected experience, or on risk rates supplied by reinsurers.

Expenses are provided for at least at current levels in respect of renewal expenses, with no allowance for any future improvement but with an allowance for any expected worsening. Per policy renewal expenses for regular premium policies are assumed to inflate at 5.41% (The inflation assumption for the previous year was 5.20%).

3.3. Encumbrances of assets

The assets of the Company are free from all encumbrances at March 31, 2013 except to the extent assets or monies are required to be deposited as margin contributions for investment trade obligations of the Company as detailed below:

- a. Fixed deposit of ₹ 1,050,100 thousand (Previous year: ₹ 1,050,000 thousand) and ₹ 100,000 thousand (Previous year: ₹ 100,000 thousand) has been deposited with National Securities Clearing Corporation Limited and Indian Clearing Corporation Limited respectively towards margin requirement for equity trade settlement;

- e. Fixed deposit of ₹ 9,700 thousand (Previous year: ₹ Nil) has been deposited with State Bank of Travancore as a security towards guarantee issued on behalf of the Company in favor of Pension Fund Regulatory and Development Authority.

3.4. Commitments

Commitments made and outstanding for loans and investment are ₹ Nil (Previous year: ₹ Nil).

Estimated amount of contracts remaining to be executed on fixed assets to the extent not provided for (net of advance) is ₹ 180,842 thousand (Previous year: ₹ 61,924 thousand).

3.5. Real Estate – Investment property

In accordance with the IRDA Regulations, 2002 (Preparation of Financial Statements and Auditors' Report of Insurance Companies), the Company's real estate investment has been revalued by an independent valuer at March 31, 2013. The real estate investment property is accordingly valued at ₹ 890,000 thousand at March 31, 2013 (Previous year: ₹ 890,000 thousand, Historical cost: ₹ 185,521 thousand).

3.6. Impairment of investment assets

In accordance with the impairment policy of the Company, other than temporary diminution in value of Investments has been assessed at March 31, 2013. The Company has accordingly written-off a part of the value of the equity investments considered as impaired. The total impairment loss recognised is ₹ 98,743 thousand at March 31, 2013 (Previous year: ₹ 127,140 thousand) in the Revenue account under Loss on sale/redemption of investments.

3.7. Deferred taxes

As required under AS 22, deferred tax asset is recognised on carry forward of eligible tax losses, which can be set off against future taxable income and on timing differences arising from funds for future appropriation under linked line of business. Deferred tax assets are reviewed at each Balance Sheet date and written down or written up to reflect the amount that is virtually certain to be realised. Deferred tax asset is recognised on the Company's eligible tax losses to the extent that there is virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax asset can be realised.

At March 31, 2013, ₹ 12,828 thousand represents deferred tax asset on carry forward unabsorbed losses (Previous year: ₹ 860,260 thousand).

Expected investment return	8.7%	8.7%
Guaranteed rate of return	8.5%	8.3%

c) Other long term benefits

Long term incentive scheme: Liability for the scheme is determined based on actuarial valuation which has been carried out using the projected accrued benefit method which is same as the projected unit credit method in respect of past service. The assumptions used for valuation are:

Particulars	March 31, 2013
Discount rate	7.8% per annum
Increase in incentive amount	0.0% per annum

Compensated absence: Liability for compensated absence for employees is determined based on actuarial valuation which has been carried out using the projected accrued benefit method which is same as the projected unit credit method in respect of past service. The assumptions used for valuation are:

Particulars	March 31, 2013
Discount rate	7.8% per annum
Salary escalation rate (per annum)	
Grade I and II	5.0%
Grade III and above	
- Year 1	10.0%
- Year 2 to 3	8.0%
- Year 4 to 6	7.0%
- Year 7 onwards	5.0%

The Company policy allows accumulation of leave of 90 days for employees who are in continuous employment of 5 years and above with the Company and 60 days with employees with lesser vintage and certain junior grades

While computing liability, 2% leave availment has been assumed for each subsequent year following the valuation date.

3.13. Employee Stock Option Scheme ("ESOS")

There are presently six ESOS schemes in force by name Founder I, Founder II, 2004-05, 2005-06, 2006-07 and 2007-08, salient features of which are as stated below:

Maximum term of options granted	Later of the tenth anniversary of the date of grant of options or the fifth anniversary of the date of vesting of options				
Mode of settlement	Equity				

Exercise price of options is subject to dilution formula and it depends on the capital base of the Company as at the date of exercise of the options. Exercise price of all the options outstanding as at March 31, 2013 for Founder I (2003-04) scheme, 2004-2005 scheme, 2005-06 scheme, 2006-07 scheme, Founder II and 2007-08 scheme is ₹ 30, ₹ 42, ₹ 70, ₹ 130, ₹ 130 and ₹ 400 respectively.

A summary of status of Company's Employee Stock Option Scheme in terms of options granted, forfeited and exercised is given below:

Particulars	At March 31, 2013	At March 31, 2012
Outstanding at the beginning of the year	12,778,898	13,565,154
Add: Granted during the year	-	-
Less: Forfeited / lapsed during the year	(401,169)	(398,281)
Exercised during the year	(90,125)	(387,975)
Outstanding at the end of the year	12,287,604	12,778,898
Exercisable at the end of the year	12,287,604	11,256,348

During the year, the Company has recognised a compensation cost of ₹ Nil (Previous year: ₹ Nil) as the intrinsic value of the options.

Had the Company followed the fair value method for valuing its options for the year, the charge to the Revenue account and Profit & Loss account would have been higher by ₹ 2,416 thousand (Previous year: ₹ 34,322 thousand) and profit after tax would have been ₹ 14,955,934 thousand (Previous year: ₹ 13,806,970 thousand). Consequently Company's basic earnings per share would have been ₹ 10.47 (Previous year: ₹ 9.67) and diluted earnings per share would have been ₹ 10.44 (Previous year: ₹ 9.64).

The weighted average price of options exercised during the year is ₹ 70.00 (Previous year: ₹ 94.00). The weighted average remaining contractual life of options outstanding at the end of the period is 4.10 years (Previous year: 5.10 years).

The Key assumptions used to estimate fair value of options are:

Particulars	Assumptions
Risk-free interest rate	6.87% - 8.00%
Expected life	3 - 5 years
Expected volatility	28.65%
Expected dividend yield	1.50%

New Business Profit Report

for the financial year ended March 31, 2013

INTRODUCTION

Life insurance policies when sold usually result in an accounting loss in the first policy year. This is called New Business Strain and it arises largely due to the acquisition costs associated with selling insurance and the prudent margin in the reserving basis. Measuring sales performance using statutory profit/loss figures then becomes paradoxical as higher sales result in bigger losses. This also does not take into account the actual value created by the sale, which will accrue to the Company over the life of the policy. To overcome these issues, New Business Profit (NBP) is used to measure sales performance and value created by new business sales.

DEFINITION

NBP is a measure of the economic value of the new business written during a defined period. It is measured as the present value of the future profits for the shareholders on account of new business sales, based on a given set of assumptions, net of the accounting loss recognised on sale. Actual experience could differ from these assumptions especially in respect of expense overruns at inception.

NBP has been calculated net of tax after providing for the cost of capital that would be required to support the business. The cost of capital is calculated as the present value of the increase in solvency capital along with the net of tax interest earned on the solvency capital, at the Risk Discount Rate (RDR).

BASIS OF PREPARATION

NBP incorporates best estimate assumptions of future rates of investment returns, policy discontinuances, mortality, expenses, inflation, taxation, bonus rates and statutory valuation bases.

ECONOMIC ASSUMPTIONS

The Company follows an active approach to setting the basis of economic assumptions. The economic assumptions used for calculation of NBP are as follows:

Particulars	FY2012	FY2013
Inflation	7.29%	6.85%
Investment returns by asset class		
- Cash	7.22%	7.35%
- Medium term G. Sec	8.62%	8.35%
- Long term G. Sec	9.12%	8.85%
- Corporate Bonds	9.57%	9.30%
- Equity	13.97%	13.70%

Glossary of Terms

ANNUALISED PREMIUM EQUIVALENT (APE)

A measure of new business activity that is calculated as the sum of annualised regular premiums from new business plus 10 per cent of single premiums on new business written during the period.

ANNUITY

Annuity contract is an agreement under which the insurance company, in return for the payment of a certain sum, makes a series of agreed payments at regular intervals from a fixed date.

BASIC EARNING PER SHARE

Net profit after tax divided by weighted average number of equity shares outstanding during the year.

BONUSES

Bonuses refers to long term guaranteed benefit added to the life insurance policies and are the way in which policyholders receive their share of the profits of the policies.

BOOK VALUE PER SHARE

Capital plus reserves divided by outstanding number of equity shares.

CLAIMS ACCEPTANCE RATIO

Ratio of insurance claims accepted to claims submitted including outstanding claims at beginning of the year.

CREDIT RISK

The risk of loss if another party fails to meet its obligations, or fails to do so in timely fashion.

DEFERRED ANNUITIES

Annuities or pensions due to be paid from a future date or when the policyholder reaches a specified age.

EXPENSE RATIO

Total expenses including commission divided by total premium less 90% of single premium.

GRIEVANCE RATIO

Number of grievances divided by policies issued in the same period (per 10,000).

IMMEDIATE ANNUITY

An annuity in which payments to the annuitant or beneficiary start at once upon establishment of the annuity plan or scheme.

Such annuities are almost always purchased with a single (lump sum) payment.

IN-FORCE

An insurance policy or contract reflected on records that has not expired, matured, lapsed or otherwise been surrendered or terminated.

INSURANCE PENETRATION & DENSITY

Penetration - Insurance premium as % of GDP. Density - Insurance premium per unit of population. Both are parameters used to compare extent of insurance across economies.

INVESTMENT LINKED PRODUCTS OR UNIT LINKED PRODUCTS

Insurance products where the surrender value of the policy is linked to the value of underlying investments (such as collective investment schemes, internal investment pools or other property) or fluctuations in the value of underlying investment or indices. Investment risk associated with the product is usually borne by the policyholder. Insurance coverage, investment and administration services are provided for which the charges are deducted from the investment fund assets. Benefits payable will depend on the price of the units prevailing at the time of surrender, death or the maturity of the product, subject to surrender charges. These are also referred to as unit-linked products or unit-linked contracts.

MORTALITY CHARGES

Mortality charges are the risk charges that are levied on the life cover part to provide the protection benefit to the policyholder.

MORTALITY RATE

Rate of death, varying by such parameters as age, gender and health, used in pricing and computing liabilities for future policyholders of life and annuity products, which contain mortality risks.

NET PREMIUM

Life Insurance premium net of reinsurance premium ceded to third-party reinsurance.

NON-PARTICIPATING PRODUCT / POLICY

A life insurance policy where the policyholder is not entitled to a share of the Company's profits and surplus, but receives certain guaranteed benefits.

Examples include pure risk policies such as fixed annuities, term insurance, critical illness and unit-linked insurance contracts.

PARTICIPATING PRODUCT / POLICIES

Contracts of insurance where the policyholder have a contractual right to receive, at the discretion of the insurer, additional benefits based on factors such as investment performance, as a supplement to any guaranteed benefits. This is also referred to as with-profit business.

PERSISTENCY RATIO

Percentage of an insurance company's premium on already written policies remaining in force, without lapsing or being surrendered.

REGULAR PREMIUM PRODUCT

Life insurance product which requires regular periodic payment of premium.

REINSURANCE

Reinsurance is insurance that is purchased by an insurance company from one or more other reinsurance companies. The intent of reinsurance is for an insurance company to reduce the risks associated with underwritten policies by sharing risks with alternative institutions.

REINSURANCE CEDED PREMIUM

Premium paid by one insurance company to other (the "reinsurer") to reduce the risks associated with underwritten policies by sharing risks with alternative institutions.

RENEWAL PREMIUM

Premiums that are payable after the initial premium and that are a condition for the continuation of the policy.

RETAIL WEIGHTED RECEIVED PREMIUM

Premiums actually received by the insurers (excluding accrued/due but not paid) weighted @10% for single premiums.

RIDER

A supplemental plan that can be attached to a basic insurance policy, with payment of additional premium.

SINGLE PREMIUMS

Single premium policies of insurance are those that require only a single lumpsum payment from the policyholder.

SOLVENCY RATIO

It means the ratio of the amount of Available Solvency Margin to the amount of Required Solvency Margin as prescribed by IRDA.

SUM ASSURED

Sum Assured is the amount of money for which the Insurance is taken.

SURRENDER

The termination of a life insurance policy at the request of the policyholder after which the policyholder receives the cash surrender value, if any, of the contract.

UNDERWRITING

Underwriting is a process of estimation of the risk assumed under a policy. It forms the basis for the premium charge for a given sum assured.

YIELD

A measure of the income received from an investment compared to the price paid for the investment. Normally expressed as a percentage.
